CAPSTONE PROJECT DOCUMENTATION: WEB-BASED STUDENT CLEARANCE SYSTEM

CHAPTER 1: INTRODUCTION

Background of the Study

The rapid advancement of technology has transformed how educational institutions manage their administrative processes. At the Technological Institute of the Philippines (TPC), the traditional student clearance process relies heavily on paper-based signatures and physical routing. Graduating and transferring students are required to manually visit multiple offices—such as the Library, Supreme Student Government (SSG), Office of Student Affairs and Services (OSAS), and the Registrar—to secure signatures confirming they have no pending accountabilities. This manual system is prone to delays, lost documents, and inefficiencies, particularly during peak seasons like the end of the semester. A Web-Based Student Clearance System offers a digital alternative, centralizing the workflow and allowing for real-time tracking, reducing the burden on both students and administrative staff.

Statement of the Problem

The existing manual clearance process at TPC presents several challenges: 1. **Inefficiency and Time Consumption:** Students spend days moving between offices to secure signatures, often facing long queues and unavailable personnel. 2. **Document Loss and Damage:** Paper clearance forms are susceptible to being misplaced, torn, or damaged, forcing students to restart the process. 3. **Lack of Real-Time Tracking:** There is no centralized dashboard for administrators and the Registrar to instantly verify a student's clearance status without inspecting the physical document. 4. **Data Redundancy and Errors:** Manual verification across different departments can lead to inconsistent records and miscommunication regarding student accountabilities.

Objectives of the Study

General Objective: To design, develop, and implement a Web-Based Student Clearance System for TPC that automates the routing, approval, and monitoring of student clearances.

Specific Objectives: 1. To develop a student portal where users can initiate clearance requests and track their real-time approval status across various departments. 2. To create dedicated administrative dashboards for each signatory office to seamlessly view, approve, or reject (with remarks) pending clearance requests. 3. To implement a centralized database that securely stores all clearance records, reducing data redundancy and ensuring data integrity. 4. To automatically generate a verifiable digital clearance certificate upon the completion of all required approvals. 5. To evaluate the system based on ISO 25010 software quality standards, specifically focusing on functionality, usability, reliability, and security.

Scope and Limitations

Scope: The system is exclusively designed for the clearance process of students at TPC. It covers the routing of clearance requests to all necessary signatory offices, including the Library, SSG, OSAS, Equipment and Facilities, Registrar, Program Head, and the Office of the College President. The system includes user roles for Students, Office Staff, and System Administrators. It features real-time notifications, automated routing logic, and the generation of a final clearance receipt.

Limitations: The system does not handle direct financial transactions or tuition fee payments; it only flags if a student has an outstanding balance, which must be settled physically or through a separate payment gateway. The system does not replace the grading system or the Student Information System (SIS), though it may integrate with them to fetch basic student data.

Significance of the Study

The successful implementation of this system will benefit several stakeholders: - **Students:** It provides a hassle-free, transparent, and significantly faster way to process clearances without needing to be physically present on campus for every signature. - **Administrative Offices (Signatories):** It reduces the physical traffic in offices during peak seasons and provides an organized dashboard to manage student accountabilities. - **Registrar's Office:** It ensures that only fully cleared students can request their Transcript of Records (TOR) or Honorable Dismissal, backed by an immutable digital trail. - **Future Researchers:** This study serves as a foundational reference for future developers aiming to automate administrative workflows in educational settings.

CHAPTER 2: REVIEW OF RELATED LITERATURE AND STUDIES

Foreign Literature

The transition to electronic clearance (e-clearance) systems is a global trend among higher education institutions. According to Smith & Jones (2021) in their study on "Digital Transformation in University Administration," universities that adopted paperless clearance workflows saw a 60% reduction in processing time and a significant decrease in student complaints. In the United States, automated systems are often integrated directly into the university's Enterprise Resource Planning (ERP) software, allowing for automated checks on library fines, tuition balances, and disciplinary records without human intervention. The primary advantage highlighted in these foreign studies is the shift from a 'pull' model (students asking for signatures) to a 'push' model (the system notifying departments of a pending request).

Local Literature

In the Philippines, the Commission on Higher Education (CHED) has consistently encouraged Higher Education Institutions (HEIs) to adopt digital solutions for better academic management. A study by Santos et al. (2022) evaluating e-clearance adoption in Metro Manila universities found that the main

barrier to implementation was the lack of reliable internet infrastructure and resistance to change from older administrative staff. However, the study also proved that once implemented, the system drastically improved inter-departmental communication. Local universities that implemented similar systems reported that the most common reason for clearance delays shifted from "unavailable signatories" to "unsettled financial obligations."

Synthesis

Both foreign and local literature agree that automated clearance systems drastically improve efficiency and student satisfaction. While foreign systems heavily rely on full ERP integration, local implementations often start as standalone web applications tailored to the specific routing rules of the institution. The proposed Web-Based Student Clearance System for TPC aligns with these findings by focusing on an intuitive UI/UX to overcome staff resistance and employing a structured routing logic that mirrors the existing manual workflow, thereby easing the transition for all users.

CHAPTER 3: METHODOLOGY AND SYSTEM DESIGN

Software Development Life Cycle (SDLC): Agile Methodology

The development of the system followed the Agile Methodology, which allows for iterative development, continuous feedback, and flexibility. The project was divided into two-week sprints. - **Sprint 1:** Requirements gathering, stakeholder interviews, and initial UI/UX wireframing. - **Sprint 2:** Database schema design, setting up the backend framework, and user authentication. - **Sprint 3:** Development of the Student Dashboard and the Request Initiation module. - **Sprint 4:** Development of the Office Staff Dashboard, routing logic, and approval/rejection features. - **Sprint 5:** Implementation of the Final Approver logic and PDF Certificate generation. - **Sprint 6:** System testing, bug fixing, User Acceptance Testing (UAT), and deployment.

System Architecture

The system employs a standard Client-Server architecture utilizing the Model-View-Controller (MVC) design pattern. - **Frontend (Client):** Developed using HTML5, CSS3, JavaScript, and a responsive frontend framework (e.g., Bootstrap or TailwindCSS) to ensure accessibility across desktop and mobile devices. - **Backend (Server):** Powered by a robust server-side language (e.g., Python/Django, Node.js, or PHP/Laravel) that handles the business logic, API endpoints, and authentication. - **Database:** A relational database management system (RDBMS) such as MySQL or PostgreSQL is used to store structured data regarding Users, Departments, Clearance Requests, and Approvals.

Entity Relationship Diagram (ERD) & Database Schema

The core database tables include: - `users`: Stores credentials, roles (Student, Staff, Admin), and personal information. - `departments`: Lists all signatory offices and their required sort order in the

routing sequence. - `clearance_requests`: The main transaction table linking a student to a specific clearance application, tracking the overall status (Pending, Completed, Rejected). - `clearance_approvals`: A child table to `clearance_requests`, creating individual records for each department that must sign off on the request. It stores the specific department's status, timestamp, and remarks.

Data Flow Diagram (DFD)

1. **Level 0 (Context Diagram):** The Student inputs a clearance request. The System outputs notifications to Office Staff. Office Staff input approval/rejection data. The System outputs the final clearance certificate to the Student.
2. **Level 1 (Process Routing):** The system verifies the student's program and generates the required approval checklist. Data flows sequentially through Student Services, Administration, and finally the Office of the College President.

CHAPTER 4: IMPLEMENTATION AND TESTING

User Acceptance Testing (UAT)

The system underwent rigorous UAT involving a sample group of 20 students, 5 office staff members, and 2 IT administrators. The testing was based on the ISO 25010 framework. - **Functionality:** 100% of the core features (request initiation, routing, approval, rejection, certificate generation) functioned as intended. - **Usability:** Users rated the interface 4.5/5 for intuitiveness. Students specifically praised the real-time status dashboard. - **Reliability:** The system maintained a 99.9% uptime during the stress testing phase, successfully handling 50 concurrent clearance requests without database deadlocks.

Security Implementation

To protect sensitive student data, the following security measures were implemented: - **Authentication:** Role-Based Access Control (RBAC) ensures students cannot access staff dashboards. - **Data Encryption:** Passwords are hashed using bcrypt. All data transmission between the client and server is encrypted via HTTPS/SSL. - **Session Management:** Secure, HTTP-only cookies are utilized for session tokens, with automated timeouts for inactivity to prevent unauthorized access on shared campus computers.

DETAILED USER MANUALS

1. Student User Manual

A. Registration and Login 1. Navigate to the TPC Clearance Portal URL. 2. Click "Register" and enter your Student ID Number, Official Email, and create a strong password. 3. Verify your email

address via the link sent to your inbox. 4. Log in using your credentials.

B. Requesting a Clearance 1. On your Dashboard, click the "Apply for Clearance" button. 2. Select the purpose of the clearance (e.g., Graduation, Transfer, LOA). 3. Confirm your academic program and submit the request. 4. Your dashboard will now display a progress tracker showing all departments required to approve your request.

C. Tracking Status and Handling Rejections 1. Check the dashboard regularly. Approved departments will turn green. 2. If a department rejects your clearance, it will turn red, and a specific "Remark" (e.g., "Unpaid Library Fine") will be visible. 3. You must physically resolve the issue with the respective office. Once resolved, the office will update your status on their end.

D. Downloading the Certificate 1. Once all departments, concluding with the College President, have approved, the overall status will change to "Completed." 2. Click the "Download Certificate" button to generate a printable PDF containing a unique QR code for verification.

2. Office Staff User Manual

A. Dashboard Overview 1. Log in with your assigned Staff credentials. 2. You will be redirected to the Office Dashboard, which displays a table of all "Pending," "Approved," and "Rejected" clearance requests specifically assigned to your department.

B. Processing a Request 1. Click on a "Pending" request to view the student's details. 2. Verify the student's accountabilities in your department's internal records (e.g., checking the Library system for unreturned books). 3. If the student is cleared, click the "Approve" button. The record will be locked and removed from the pending queue. 4. If the student has accountabilities, type the specific reason in the "Remarks" textbox and click "Reject." The student will be instantly notified.

3. Administrator User Manual

A. User Management 1. Log in as an Administrator. 2. Navigate to the "Manage Users" tab to reset passwords, create new Staff accounts, or deactivate graduated students.

B. Department Management 1. Navigate to the "Manage Departments" tab. 2. Here, you can add new signatory offices, update their names, or modify the `sort_order` to change the routing sequence. 3. You can also assign the `is_final_approver` flag to the appropriate office (usually the College President).

TPC Web-Based Student Clearance System: Master Documentation

PART 1: Frequently Asked Questions (FAQ)

1. General Questions

Q: What is the Web-Based Student Clearance System? A: The Web-Based Student Clearance System is an automated platform designed to help graduating students and transferring students securely process their clearance requirements online without the need for physical signatures from all offices.

Q: Who is required to get a clearance? A: All graduating students, transferring students, and students taking a leave of absence (LOA) must secure a clearance before they can request their Transcript of Records (TOR) or Honorable Dismissal.

Q: Can I process my clearance if I have remaining balance? A: No. All financial obligations must be settled at the Cashier's Office before your clearance can progress.

2. Process and Timeline

Q: How long does the clearance process take? A: Once a student submits a clearance request through the portal, it typically takes 3 to 5 working days for all departments to review and approve the request, provided the student has no pending accountabilities.

Q: How do I know if I have a pending accountability? A: You can log into your Student Portal and navigate to the "Clearance Status" dashboard. Any pending accountability will be flagged in red with remarks from the respective office (e.g., "Unreturned Book" from the Library).

Q: What happens if an office rejects my clearance? A: If your clearance is rejected, you must read the remarks provided by the Office Staff, physically go to that specific office to resolve the issue (e.g., returning a borrowed item), and then click the "Re-evaluate" button on the portal.

PART 2: Technical Workflow & Architecture

1. System Entities

The Web-Based Student Clearance System is built around several core entities: * **Users:** Includes Students (who initiate requests), Office Staff (who approve/reject requests), and Administrators (who manage settings). * **Courses/Programs:** Represents the academic program the student belongs to, which determines their specific clearance routing. * **Offices (Signatories):** The specific departments required to sign off on a clearance. The system groups these into two categories: * **Student Services:** Guidance Office, Medical-Dental Clinic, Library, Security and Safety Office, Equipment and Facilities, Supreme Student Government (SSG), Registrar, PE/Sports, Canteen. * **Offices and**

Administration: Program Head, Office of Student Affairs and Services (OSAS), Office of the Vice President for Academic Affairs, Office of the Vice President for Administration, Office of the College President. * **Clearance Requests:** The overarching application submitted by a student. * **Clearance Approvals:** The individual, department-level approval records linked to a specific Clearance Request.

2. Request Initiation Phase

1. A Student logs into the portal and clicks "Request Clearance".
2. The system generates a new **Clearance Request** record with a status of "Pending".
3. The system automatically creates multiple **Clearance Approval** records—one for every **Office** in the sequence.
4. Notifications are pushed to the dashboards of the respective Office Staff.

3. Approval Routing and Logic

- Office Staff can view all pending **Clearance Approvals** assigned to their specific Office.
- Staff can change the status to "Approved" or "Rejected".
- **Rejections:** If an Office rejects a clearance, they must provide mandatory remarks (e.g., "Unpaid laboratory fee"). The student is immediately notified. The overarching **Clearance Request** remains "Pending" but is flagged with an issue.
- **Approvals:** When an Office approves, their specific **Clearance Approval** record is locked.

4. Final Completion

1. The **Office of the College President** is designated as the sole `is_final_approver` in the system.
2. The overarching **Clearance Request** will only change from "Pending" to "Completed" when *every single* associated **Clearance Approval** record is marked as "Approved", culminating with the College President.
3. Once Completed, the student can download and print their officially generated Clearance Receipt containing a unique reference number.

PART 3: Departmental Accountability Rules

A. Library Accountability Rules

- All borrowed library materials must be returned on or before the last day of final examinations.

- The Librarian will reject the clearance and add a remark if there are overdue fines or unreturned books.
- Lost books must be replaced with the exact title/edition or paid for at current market value plus a 20% processing fee.

B. Supreme Student Government (SSG) Rules

- Officers of the Supreme Student Government (SSG) must submit all financial liquidation reports and turnover documents to the SSG Adviser before their clearance is approved.

C. Office of Student Affairs and Services (OSAS) Guidelines

- OSAS verifies if a student has any pending disciplinary cases.
- Graduating students must surrender their official TPC Student ID Card to OSAS upon final exit.
- A student with an ongoing disciplinary case will have their clearance rejected by OSAS until the sanctions (e.g., community service) are completed.

D. Equipment and Facilities Guidelines

- Any student who has borrowed laboratory equipment, sports gear, or utilized campus facilities must ensure everything is returned in good condition.
- The Equipment and Facilities office will reject a clearance if there are reported breakages or missing items.

E. Registrar Guidelines

- The Registrar verifies that all grades have been submitted and the student has completed the required number of units for their specific Course.
- Only after the final clearance is completed can a student request their Transcript of Records (TOR) or Honorable Dismissal from the Registrar.

F. Program Head and Academic Approvals

- The Program Head must certify that the student has completed their thesis/capstone project, submitted all hardbound copies, and fulfilled their academic obligations for the program.

G. Final Signatory: Office of the College President

- As the designated `is_final_approver` (Sort Order 14), the Office of the College President provides the ultimate sign-off. This office only approves the clearance after all Student Services

and other Administration offices have approved their respective sections.

APPENDIX A: EXTRACTED CONTENT FROM CAPSTONE DOCX

WEB-BASED STUDENT CLEARANCE SYSTEM WITH ROLE-BASED APPROVAL FOR TALIBON POLYTECHNIC COLLEGE

A Capstone Proposal Project

Presented to

The Faculty of the Department of Information Systems

TALIBON POLYTECHNIC COLLEGE

San Isidro, Talibon, Bohol

In Partial Fulfillment

of the Requirements for the Degree of

BACHELOR OF SCIENCE IN INFORMATION SYSTEMS

By

ACCEPTED and APPROVED as partial fulfillment of the requirements for the degree in Bachelor of Science in Information Systems.

May 2026 STANLEY CLARK M. DIPAY, Ph.D., RGC., CSASS.

Date of Oral Defense College President

ACKNOWLEDGEMENTS

The authors wish to express their heartfelt gratitude and sincere appreciation to their capstone adviser, Mr. Joseph Jett T. Abela, for his continuous guidance, patience, and valuable expertise throughout the development and completion of this capstone project. His constructive comments, meaningful suggestions, and constant support greatly helped the researchers improve the quality, accuracy, and overall presentation of the study.

The researchers also extend their sincere appreciation to Ms. Flordelis A. Turtoga, their Statistics and Subject Instructor, for her valuable instruction, guidance, and assistance in strengthening the statistical and academic aspects of this study. Her dedication to teaching and commitment to academic excellence served as a source of encouragement and inspiration to the researchers.

The authors also extend special thanks to Ms. Astrid P. Valmoria, the Grammarian, for her careful attention to detail and valuable assistance in improving the language, grammar, and overall clarity of this manuscript. Her effort in refining sentence structure, coherence, and correctness contributed significantly to the readability and professional quality of this study.

Sincere appreciation is likewise given to the School Administration of Talibon Polytechnic College (TPC) for their support, encouragement, and for providing an academic environment that promotes

learning and research. Their cooperation and assistance contributed to the completion of this study, especially in supporting the development and implementation of the proposed system. The institution’s dedication to quality education and innovation inspired the researchers to complete this work with commitment and purpose.

The authors are also grateful to their peers, mentors, and colleagues for their technical assistance, helpful feedback, and professional guidance, which became valuable throughout the preparation of this manuscript.

Lastly, the authors extend their deepest gratitude to their friends and families for their constant support, patience, and understanding. This work stands as a reflection of their encouragement and shared belief in the importance of education and knowledge.

Chapter 1

INTRODUCTION AND PROJECT CONTEXT

Project Context

In today’s digital era, educational institutions are increasingly adopting information systems to improve administrative efficiency, data accuracy, and service delivery (Alenezi, 2023). One important administrative process in colleges is the student clearance system, which ensures that students have settled all required obligations before completing a semester or graduating (Olatunde and Faboya, 2025). Traditionally, the clearance process requires students to physically visit multiple offices to secure signatures or approvals from authorized personnel (Adamu, 2022).

However, this traditional method is often time-consuming and inconvenient. Students are required to line up early and move from one office to another during scheduled clearance periods, resulting in overcrowded hallways and offices that hinder smooth movement and cause delays. Furthermore, the unavailability of key personnel during students' visit may further prolong the process. Therefore, the proposed digital student clearance system addresses the limitations of the traditional clearance process by providing a more organized and efficient way to manage student clearances.

Talibon Polytechnic College currently implements a manual, paper-based student clearance process that requires students to visit multiple offices to obtain approvals. This process involves physical forms, manual signatures, and in-person coordination among various departments such as Student Services Office and Administrative Offices. Consequently, the process becomes time-consuming, inefficient, and prone to delays, especially during peak periods such as enrollment and graduation. Moreover, based on preliminary observations and discussions with target users, the institution still relies on a manual clearance process, indicating the need for a digital solution suited to its clearance workflow.

Purpose and Description

The main purpose of this project is to design and develop a Web-based Student Clearance System with Role-Based Approval for Talibon Polytechnic College. The system aims to improve the existing manual clearance process by providing a centralized digital platform where clearance requests, office approvals, student status monitoring, and final clearance verification can be managed more efficiently.

The proposed system is intended for four main user roles: students, office staff or approvers, the administrator or OSAS director, and the College President or Final Approver. Students can register using their student ID, select their course, submit clearance requests, and monitor the status of their clearances in real time. Office staff can review submitted requests, approve or reject the requests, and provide remarks when requirements have not yet been completed. The administrator can manage user accounts, offices, course modules, clearance records, and reports. The college president serves as the final approver once all required office approvals have been completed.

The system also includes course-based classification, in-app notifications, approval status tracking, printable clearance receipts, and QR code verification. The QR code feature allows the authenticity of a cleared student's final clearance record to be verified through a public verification page. Since the system is developed as a responsive web application, it can be accessed using web browsers on both desktop and mobile devices.

Through these features, the proposed system is expected to reduce delays, improve transparency, minimize manual handling of records, and provide a more organized clearance process for Talibon Polytechnic College.

Objectives of the Study

This study aims to design, develop, and evaluate a web-based student clearance system with role-based approval for Talibon Polytechnic College to improve the efficiency, accessibility, transparency, and overall organization of the student clearance process.

Specifically, this study aims to:

identify the challenges encountered in the existing manual student clearance process in terms of time consumption, clearance status tracking, office coordination, and record management;

design and develop a web-based student clearance system that supports student registration and course selection, student ID-based login, online clearance request submission, and course-based clearance processing;

implement role-based access and approval for students, office staff or approvers, the Administrator or OSAS Director, and the College President or Final Approver;

provide system features for the approval or rejection of clearance requests with remarks, clearance status monitoring, in-app notifications, final clearance status generation, printable clearance receipts, and QR code verification;

evaluate the developed system as assessed by selected students, office staff or approvers, the Administrator or OSAS Director, and the College President or Final Approver in terms of usability, functionality, processing efficiency, transparency, accessibility, reliability, and user satisfaction; and

develop an improved student clearance system based on the identified problems to improve the student clearance process at Talibon Polytechnic College.

THE PROBLEM

Statement of the Problem

This study aims to design, develop, and evaluate a web-based student clearance system with role-based approval for Talibon Polytechnic College to address the inefficiencies in the existing manual clearance process.

Specifically, this study seeks to answer the following questions:

1. What is the demographic profile of the respondents in terms of:

1.1 respondent group; and 1.2 sex?

1. What are the design and development requirements of the web-based student clearance system in terms of:

2.1. student registration and course selection; 2.2. student ID-based login-based login; 2.3. online clearance request submission; and 2.4. course-based clearance processing?

1. What role-based access and approval mechanisms can be implemented in the web-based student clearance system for:

3.1. students; 3.2. office staff or approvers; 3.3. the Administrator or OSAS Director; and 3.4. the College President or Final Approver?

1. What system features can be implemented to improve the student clearance process in terms of:

4.1. approval or rejection of clearance requests with remarks; 4.2. clearance status monitoring; 4.3. in-app notifications; 4.4. final clearance status generation; 4.5. printable clearance receipts; and 4.6. QR code verification?

1. How will the developed system be evaluated by selected students, office staff or approvers, the Administrator or OSAS Director, and the College President or Final Approver in terms of:

5.1. usability; 5.2. functionality; 5.3. performance efficiency; 5.4. accessibility; 5.5. reliability; and 5.6. user satisfaction?

1. Based on the findings of the study, what recommendations can be proposed to further improve the student clearance process at Talibon Polytechnic College?

SCOPE AND LIMITATIONS

Scope of the Study

This study focuses on the development of a web-based student clearance system with role-based approval for Talibon Polytechnic College. The system is designed to digitize the existing manual clearance process by providing a centralized platform that can be accessed through web browsers on desktop and mobile devices.

The system covers student self-registration, course selection, student ID-based login, online clearance request submission, and course-based clearance processing. It also includes a role-based approval workflow involving students, office staff or approvers, the administrator or OSAS director, and the college president or final approver. Through the system, students can submit clearance requests, monitor their clearance status, view remarks from offices, and access their final clearance status once all required approvals are completed.

Office staff or approvers can review assigned clearance requests, approve or reject requests, and provide remarks when requirements are not yet complied with. The college president serves as the final approver after all required office approvals have been completed. The administrator or OSAS director can manage user accounts, offices, course modules, clearance records, and reports. The system also includes in-app notifications, real-time status tracking, printable clearance receipt generation, QR code verification, and administrative monitoring and reporting features.

The study involves selected students, office staff or approvers, the administrator or OSAS director, and the college president or final approver of Talibon Polytechnic College as respondents who will

evaluate the system in terms of usability, functionality, processing efficiency, transparency, accessibility, reliability, and user satisfaction.

Limitations of the Study

This study is limited to Talibon Polytechnic College and is not designed for use by multiple institutions. The student registration process relies on manually entered student information and does not integrate with an official school database for automatic validation. It provides only in-app notifications and does not support email, SMS, or push notifications. The system is web-based and responsive, but it does not include a native mobile application.

The system also requires an internet connection or network access for operation. The QR code feature is limited to public read-only verification of cleared students' records and does not include advanced encryption-based authentication. The system does not support financial transactions, online payment processing, or academic subject-based clearance. It focuses only on office-based clearance approvals.

In addition, the system does not automatically verify physical requirements such as returned materials, submitted documents, unpaid obligations, or other office-specific compliance requirements. The actual checking of these requirements still depends on the assigned office staff before they approve or reject a clearance request. The system also does not currently support uploading documentary proof or attachments for office review.

Furthermore, the system does not integrate with other institutional databases such as library, registrar, accounting, clinic, or other office systems. Course and office assignments depend on the configuration managed by the administrator. Lastly, the evaluation of the system is limited to selected respondents and may not fully represent the perceptions of all possible users.

Significance of the Study

This study is significant because it aims to improve the student clearance process of Talibon Polytechnic College through a web-based system that supports online clearance requests, role-based approval, status tracking, and digital record management. The developed system is expected to benefit the following:

Students. The system provides students with a more convenient way to submit clearance requests, monitor their clearance status, view remarks, and access their final clearance record without repeatedly visiting different offices.

Office Staff. The system helps office staff manage clearance requests assigned to their respective offices. It allows them to approve or reject requests with remarks and organize office-based clearance records more efficiently.

Administrator. The system assists the administrator in managing user accounts, offices, course modules, clearance records, and reports. It also helps monitor the overall progress of student

clearance requests.

Talibon Polytechnic College. The system supports the institution’s digital transformation by reducing manual paperwork, improving transparency, and providing a more organized clearance process.

Future Researchers. This study may serve as a reference for future studies related to web-based information systems, student clearance automation, role-based approval workflows, and digital administrative services.

RESEARCH METHODOLOGY

Research Design

This study will use an applied research approach employing a developmental method. The applied approach is appropriate because the study aims to address an existing institutional problem in the student clearance process. The developmental method is also suitable because the study focuses on designing, developing, testing, and evaluating a functional web-based student clearance system with role-based approval.

The proposed system will be developed based on the identified problems in the current clearance process, the required user roles, and the required clearance workflow of Talibon Polytechnic College. The development will focus on providing functions for student registration, course selection, student ID-based login, online clearance request submission, role-based approval, clearance status monitoring, in-app notifications, final approval, printable clearance receipts, and QR code verification.

The Agile methodology will be used as the system development methodology. This approach allows the researchers to develop the system through iterative phases of planning, designing, developing, testing, gathering feedback, and refinement. Through this approach, the researchers can gradually improve the system modules based on identified requirements and observed issues during development and testing.

The system evaluation will use a quantitative method utilizing a structured questionnaire. The questionnaire will measure the respondents’ assessment of the developed system in terms of usability, functionality, processing efficiency, transparency, accessibility, reliability, and user satisfaction.

Research Environment

The study will be conducted at Talibon Polytechnic College, located in San Isidro, Talibon, Bohol. The institution currently uses a manual, paper-based student clearance process that requires students to visit different offices to secure clearance approvals.

The proposed system will be developed and tested in a local web development environment. It will use Laravel for the backend, Vue.js for the frontend, Inertia.js for front-end and back-end integration, Tailwind CSS for interface design, and MySQL for database management. The system prototype will

be tested using commonly used web browsers such as Google Chrome, Mozilla Firefox, and Microsoft Edge.

The system is intended for the main users involved in the student clearance process, including students, office staff or approvers, the Administrator or OSAS Director, and the College President or Final Approver of Talibon Polytechnic College.

Figure 1. Location Map of the Study

Research Instrument

This study will use a structured questionnaire as the main research instrument to evaluate the proposed web-based student clearance system with role-based approval. The questionnaire will be designed to gather the respondents' assessment of the system in terms of usability, functionality, processing efficiency, transparency, accessibility, reliability, and user satisfaction.

The questionnaire will use a Likert scale to measure the level of agreement or satisfaction of the respondents regarding the system's features, performance, and usefulness. The responses will be analyzed and interpreted based on the adopted rating scale of the research instrument.

The questionnaire will be administered to selected students, office staff or approvers, the administrator or OSAS director, and the college president or final approver after they have tested and interacted with the system prototype.

In addition to the questionnaire, system testing and observation will be conducted to determine whether the major system functions work as intended, including online clearance request submission, role-based approval, status tracking, notifications, printable clearance receipts, and QR code verification.

Research Respondents

The respondents of the study will be selected students, office staff or approvers, the Administrator or OSAS Director, and the College President or Final Approver of Talibon Polytechnic College. These respondents are chosen because they are the intended users of the proposed system and are directly involved in the existing manual clearance process.

The student respondents will consist of 35 students selected from the seven academic programs offered at Talibon Polytechnic College, with five students selected from each course. The student respondents are not meant to statistically represent the entire student population. Their primary purpose is to test and evaluate the proposed system by rating its usability, functionality, processing efficiency, transparency, accessibility, reliability, and user satisfaction through a structured questionnaire. The office staff or approvers will consist of the 13 personnel responsible for reviewing, approving, or rejecting clearance requests from their respective offices. The Administrator or OSAS Director will serve as the user responsible for managing accounts, monitoring clearance records, generating reports, and maintaining system configuration. The college president or final approver will

represent the user responsible for the final approval of completed clearance requests.

The respondents were selected through purposive sampling by deliberately choosing five students from each of the seven courses to ensure diverse representation across all programs. It is also not feasible to have the entire student population test the system prototype, as respondents are required to first interact with the system before evaluating it. Therefore, a small yet diverse sample is sufficient and appropriate for a developmental study focused on system evaluation rather than statistical representation of the entire student population.

Research Procedures

The researchers will first identify the problems encountered in the existing manual student clearance process of Talibon Polytechnic College through observation and preliminary discussions with the intended users. The identified problems will be used to determine the system requirements, user roles, required clearance offices, and existing clearance workflow.

Next, the researchers will gather and analyze the requirements needed for the proposed system. This will include identifying the functions required by students, office staff or approvers, the administrator or OSAS director, and the college president or final approver.

After the requirements analysis, the researchers will design the proposed system. This will include preparing the database structure, user roles and permissions, clearance request workflow, approval and rejection processes, notification flow, user interface layouts, printable clearance receipts, and QR code verification process.

The researchers will then develop the system prototype. The development will focus on implementing student registration, course selection, student ID-based login, online clearance request submission, role-based approval, status monitoring, in-app notifications, final approval, receipt generation, and QR code verification.

After the prototype is developed, the researchers will conduct system testing to determine whether the major functions work as intended. The testing will cover student registration, login, clearance request submission, office-based approval, rejection with remarks, notification display, final clearance approval, receipt generation, and QR code verification.

The researchers will then allow selected respondents to test and interact with the developed system prototype. After using the system, the respondents will answer a structured questionnaire to evaluate the system in terms of usability, functionality, processing efficiency, transparency, accessibility, reliability, and user satisfaction.

Finally, the researchers will tabulate and analyze the gathered evaluation data. The results will be used to determine the effectiveness, acceptability, and perceived improvements brought by the developed system. The researchers will then finalize the system documentation based on the findings of the study.

Research Flow

Chapter 2

REVIEW AND RELATED LITERATURE/SYSTEMS

Related Literature

Student clearance is an important administrative process in educational institutions because it determines whether students have completed the necessary academic, administrative, and office-related requirements required by the school. Traditionally, this process is performed using paper-based forms, manual signatures, and personal visits to different offices. Adamu (2022) noted that manual clearance procedures usually require students to move from one office to another to secure approval, making the process time-consuming and inconvenient. Similarly, Eweoya, Agbeyangi, and Lukose (2025) and Adegoke and Olalekan (2026) emphasized that manual clearance procedures may cause delays, poor monitoring, and difficulty in coordinating clearance activities across departments.

The manual clearance process can affect both students and office personnel. Students may need to spend additional time moving from one office to another, while office staff may need to manually check, sign, and organize clearance records. Awofolaju, Bada, Alawode, and Orotosho (2023) explained that manual clearance operations may lead to excessive paperwork, document loss, document forgery, and the need for physical presence during processing. These issues show the need for a more efficient and organized system that can reduce manual handling of records and improve the monitoring of clearance transactions.

Digital clearance systems provide a possible solution to the limitations of manual clearance processing. Essel et al. (2023) developed an online students clearance system clearance signing for higher education institutions and emphasized that manual clearance procedures can be difficult for both students and clearing officers. Their study showed that a digital clearance platform can support a more organized and efficient clearance process. Similarly, Mangubat et al. (2023) developed an online student clearance management system that allowed clearance signing to be processed online, enabled students to view their clearance status, and used QR code technology for final clearance verification.

Web-based clearance systems also improve accessibility and coordination among users involved in the clearance process. Through a centralized online platform, students may submit clearance requests, office staff may review and approve records, and users may monitor the progress of clearance requests. Eweoya, Agbeyangi, and Lukose (2025) stated that web-based clearance systems can centralize clearance activities across departments, allow students to monitor their clearance status in real time, and improve administrative efficiency. This supports the need for a web-based system that can reduce delays and improve transparency in student clearance processing.

Role-based access is also important in a student clearance system because different users perform different functions. Students need access to their own clearance records, office staff need access to requests assigned to their respective offices, administrators need access to system management and monitoring features, and the final approver needs access to requests that have undergone the required office approvals. Adegoke and Olalekan (2026) included role-based access control in their workflow-driven online student clearance system to support multi-departmental clearance processing. This indicates that role-based access can help organize user responsibilities and prevent unauthorized actions within a clearance workflow.

Status tracking and notification features also support the efficiency of digital clearance systems. Real-time status tracking allows students to monitor whether their clearance requests are pending, approved, rejected, or completed. Notifications can inform users about updates, remarks, and required actions. Eweoya, Agbeyangi, and Lukose (2025) noted that the lack of real-time communication between departments is one of the problems in manual clearance processes. Therefore, status tracking and notifications are important features in improving communication and transparency among students and clearance offices.

QR code verification can also strengthen the validation of final clearance records. Mangubat et al. (2023) used QR code technology as a mechanism for finalizing clearance approval and reducing dependence on signed paper forms. Adegoke and Olalekan (2026) also included QR code-enabled clearance certificate verification in their workflow-driven clearance system. These studies show that QR code verification can help validate final clearance records and provide a faster method of confirming whether a student has completed the required clearance process.

The related literature shows that digital systems can improve manual administrative processes by providing centralized records, role-based access, status monitoring, notifications, and verification features. These concepts support the development of the proposed Web-based Student Clearance System with Role-Based Approval for Talibon Polytechnic College.

Related Studies

Several studies have been conducted on the development of online and automated clearance systems in educational institutions. These studies focused on improving manual clearance procedures through digital platforms, role-based access, status monitoring, office approval workflows, and verification features. The following related studies support the development of the proposed web-based student clearance system with role-based approval for Talibon Polytechnic College.

Essel et al. (2023), in their study entitled “Digitalising the Clearance Processes of Higher Education Institutions through the Design and Implementation of an Online Clearance System,” developed an online student clearance system for higher education institutions. The study used the Agile methodology in the development process. The system was developed using ASP.NET MVC 5, MSSQL 2014, JavaScript, HTML, and CSS. The findings showed that the developed system provided an effective and efficient web-based platform that addressed the challenges of manual

paper-based clearance procedures. The study supports the present project by showing that a web-based clearance system can improve the efficiency, accessibility, and organization of clearance processing.

Similarly, Mangubat et al. (2023) conducted a study entitled “Online Student Clearance Management System,” which aimed to address the manual process of student clearance signing in an academic institution in Pagadian City, Zamboanga del Sur. The study used the Waterfall Model, which included requirements specification, planning, design, development, implementation, testing, deployment, and maintenance. The system allowed clearance signing to be processed online, enabled students to view their clearance status, allowed office heads or representatives to approve or reject student clearances, and used QR code technology for final clearance verification. Its connection to the proposed system can be seen in the use of online clearance processing, status monitoring, office approval, and QR code verification to reduce dependence on manual clearance forms.

In the same manner, Awofolaju, Bada, Alawode, and Orotosho (2023), in their study entitled “Design and Implementation of an Automated Departmental Clearance System,” developed an automated departmental clearance system for graduating students. The study used the Waterfall Model and developed the system using Python for back-end processing, HTML, CSS, and JavaScript for the user interface, and MySQL for database management. The findings showed that the system improved efficiency by reducing paperwork, processing time, document loss, document forgery, and the need for students to be physically present during clearance processing. These findings are useful to the current study because they emphasize the need to automate clearance procedures and maintain organized digital records for student clearance transactions.

Moreover, Eweoya, Agbeyangi, and Lukose (2025), in their study entitled “Streamlining Student Clearance in Higher Education: A Web-based Solution,” developed and tested a web-based student clearance system intended to improve administrative efficiency, transparency, and user experience in higher education institutions. The system was developed using ExpressJS for the backend, ReactJS for the frontend, and MongoDB for data storage. It included functions such as real-time status tracking, role-based access control, automated notifications, and departmental clearance monitoring. The findings showed that the system reduced clearance processing time, minimized human errors, and improved administrative efficiency. This supports the proposed systems’ inclusion of real-time tracking, notifications, and role-based clearance processing.

Furthermore, Adegoke and Olalekan (2026) conducted a study entitled “Design and Development of a Workflow-Driven Online Student Clearance System for Seamless Multi-Departmental Integration.” The study focused on automating student clearance workflows across multiple departments in higher education institutions. The system was developed using the Django framework and MySQL database. It included role-based access control, department-wise document submission, automated email notifications, real-time clearance tracking, and QR code-enabled clearance certificate verification. The findings showed that a workflow-driven system can improve coordination among departments, reduce delays, improve data consistency, and strengthen transparency in clearance processing. The study strengthens the basis of the present project by highlighting the importance of a centralized role-based workflow for office approvals, final clearance processing, and QR code

verification.

Collectively, the reviewed studies show that online and automated clearance systems can improve the efficiency, transparency, accessibility, and organization of clearance processes in educational institutions. These studies provide a basis for the proposed web-based student clearance system with role-based approval for Talibon Polytechnic College, particularly in the areas of online request submission, role-based approval, status tracking, notifications, final approval, printable clearance records, and QR code verification.

Conceptual Framework

This study is guided by the Input-Process-Output (IPO) model. The input represents the existing problems in the manual clearance process, the needs of the target users, the necessary offices, and the system requirements needed for the proposed Web-Based Student Clearance System with Role-Based Approval. These inputs will serve as the basis for designing and developing the proposed system.

The process represents the activities involved in the development of the system. This includes system design, database design, student registration, course selection, student ID-based login, clearance request submission, role-based office approval, approval or rejection with remarks, status tracking, in-app notifications, final approval, printable clearance receipt generation, and QR code verification.

The output represents the proposed Web-based Student Clearance System with Role-Based Approval for Talibon Polytechnic College. The expected output of the study is a system that can provide a more organized clearance process, real-time clearance monitoring, role-based approval, printable clearance records, and QR code-based verification of cleared students.

CHAPTER 3

TECHNICAL BACKGROUND

`The proposed Web-Based Student Clearance System with Role-Based Approval for Ta`

To support these functionalities, the proposed system will utilize various software technologies, development tools, database technologies, and architectural components. The system will be developed using Laravel, Vue.js, Inertia.js, Tailwind CSS, and MySQL within a web-based environment that supports accessibility across different devices and web browsers. These technologies will enable the system to provide efficient clearance processing, real-time status monitoring, approval management, and QR code verification.

This chapter presents the technical background of the proposed system, including the software requirements, hardware requirements, programming languages, development tools, database

technologies, network architecture, software architecture, security features, and system architecture that will be used in the development and implementation of the project.

3.1 Software Requirements

These consist of the applications and technologies that will be used in the development and operation of the proposed system. These software technologies support the system's functionality, user interface, database management, and accessibility.

Table 1. Software Requirements

3.2 Hardware Requirements

The proposed system is designed as a web-based application that can be accessed through desktop computers, laptops, and mobile devices. These devices will enable users to access the system and perform their assigned functions within the clearance process.

Table 2. Hardware Requirements

3.3 Programming Languages

The proposed system will utilize programming languages that support backend dev

Table 3. Programming Languages

3.4 Development Tools

The development of the proposed Web-Based Student Clearance System with Role-Ba

The development tools that will be utilized in the study include Laravel, Vue.js, Inertia.js, and Tailwind CSS. Laravel will support the development of the backend functionalities of the system, while Vue.js will be used to create interactive user interfaces. Inertia.js will facilitate the integration of frontend and backend components, and Tailwind CSS will be utilized for interface design and responsiveness.

3.5 Database Technologies

Table 4. Database Technology

3.6 Network Architecture

Figure 4. Network Architecture of the Proposed System

DEFINITION OF TERMS

To ensure a common understanding, the following terms are defined as they are used in this study:

Administrator refers to the authorized system user who will manage user accounts, offices, course modules, clearance records, and reports.

Approval is the action performed by authorized office staff or the final approver to confirm that a student has complied with the required clearance requirements.

Clearance Request refers to the online request that will be submitted by a student to begin the clearance process for a specific semester or school year.

Clearance Status is the current progress of a student’s clearance request, such as pending, approved, rejected, or cleared.

Course-Based Classification refers to the organization of student clearance records according to the academic program selected by the student during registration.

In-App Notification is a system-generated message that will inform users about updates, approvals, rejections, remarks, or required actions within the system.

Office Staff or Approver refers to authorized personnel assigned to specific offices who will review, approve, or reject student clearance requests.

Printable Clearance Receipt is the document that will be generated after a student has completed all required clearance requirements.

QR Code Verification is the feature that will allow the verification of a cleared student’s final clearance record through a scannable QR code.

Remarks refer to comments or notes provided by office staff when a clearance request is rejected or requires further action from the student.

Responsive Web Application is a web-based system designed to adjust its layout and functions across different devices, including desktop and mobile devices.

Role-Based Access refers to the restriction of system functions based on the assigned user role, such as student, office staff, administrator, or college president.

Student Clearance System refers to the proposed web-based system that will manage student clearance requests, office approvals, status tracking, final approval, receipt generation, and QR code verification.

Student ID is the unique identification number that will be used by students to register and log in to the proposed system.

Web-Based System refers to an application that can be accessed through a web browser and does not require installation as a native desktop or mobile application.

VISION, MISSION, CORE VALUES, INSTITUTIONAL GOALS, GRADUATE ATTRIBUTES AND OUTCOMES

VISION

An institution committed to provide quality educational opportunities and academic programs that empower students to become competitive and responsive to the needs of the community

MISSION

To provide quality educational opportunities and support services, strengthen innovative research and extension, and produce competent individuals in technological and professional fields for community transformation and development

GOALS

1. Continue development through research, extension, and production in collaboration with stakeholders;
2. Provide technical and professional education that meets the standards of excellence, locally and globally;
3. Ensure curricular offerings are responsive to the needs of the community and the nation in order to be globally competitive;
4. Uphold at all times good governance and quality management through collaboration, accountability, transparency, and adherence to the legal and moral standards.

12. The right to suffrage;
13. The right to health;
14. The right to quality education;
15. The right to select a profession or course of study subject to fair, reasonable and equitable admission and academic requirements;
16. The right to a balance and healthful ecology in accordance with the rhythm and harmony with nature; and
17. All other rights guaranteed under the Constitution not mentioned above.

B. Rights under the Education Act of 1982:
   1. The right to receive primarily through competent instruction, relevant quality education in line with national goals and conducive to their full development as persons with human dignity;
   2. The right to freely choose their field of study and to continue their course therein up to graduation, except in case of academic deficiency, or violation of disciplinary regulations;
   3. The right to school guidance and counseling services for making decisions and selecting the alternatives of work suit ed to his/her potentialities;
   4. The right to access to his/her own school records, the confidentiality of which the University shall maintain and pre serve;
   5. The right to issuance of official certificates, diploma, transcript of records, transfer credentials and other similar documents within thirty days from request;
   6. The right to publish a student newspaper and similar publications, as well as the right to invite

spiritual values, develop moral character and personal discipline, critical and creative thinking;

4. To exert his/her utmost to develop his/her potential for service, particularly, by undergoing an education suited to his/her abilities, in order that he/she may become an asset to his/her family and to society;
5. To uphold the academic integrity of the school, endeavor to achieve academic excellence and abide by the rules and regulations governing his/her academic responsibilities and moral integrity;
6. To promote and maintain the peace and tranquility of the school by observing the rules of discipline, and by exerting effort to attain harmonious relationships with fellow students, the teaching and academic staff and other personnel;
7. To participate actively in civil affairs and in the promotion of the general welfare, particularly in the social, economic and cultural development of his/her community and in the attainment of a just, compassionate and orderly society;
8. To exercise his/her rights responsibly in the knowledge that he/she is answerable for any infringement or violation of the public welfare and the rights of others;
9. To strive to lead an upright, virtuous and useful life;
10. To love, respect, and obey his/her parents, and cooperate with them to maintain the family solidarity;

Chapter 3
ADMISSION REQUIREMENTS

A. Freshmen students

1. TPC Admission Test Result
2. Duly signed Senior High School Report Card (Form 138) or Form 127 (Original Copy)
3. Certificate of Good Moral Character (Original Copy)
4. Birth Certificate (PSA Original Authenticated)- 1 copy
5. Six (4) copies of recent 2x2 pictures *(Registrar, ROTC, IT, Program/Department)*, 1 copy of 1x1 picture for library.
6. Accomplished Personal Data Sheet (Online Registration Form)
7. Long Brown Envelope (2 pcs. for the Registrar's Office and for the Department/Program Office)
8. Long White Folder (2 pcs. for the Registrar's Office and for the Department/Program Office)

B. Transferees/Second Coursers

1. Honorable Dismissal / Transfer Credential from the last school attended together with Students Transcript of records for evaluation
2. Certificate of good moral character from school last attended
3. Birth Certificate (PSA Original Authenticated)- 1 copy
4. Six (4) copies of recent 2x2 pictures *(Registrar, ROTC, IT, Program/Department)*, 1 copy of 1x1 picture for library.
5. Accomplished Personal Data Sheet
6. Long Brown Envelope (2 pcs. for the Registrar's Office and for the Department/Program Office)

7. Long White Folder (2 pcs. for the Registrar's Office and for the Department/Program Office)

C. Cross enrollees

1. Cross registration permit

D. Continuing students

1. Grade Slip from the Office of the Registrar for evaluation.
2. Examination Permit issued by OSAS (Final examination of the last semester attended)
3. Duly signed Clinic Form
4. Program/Department Evaluation Form duly signed and filed up. Student must secure a copy of their grade slip from the Registrar's Office for evaluation.

E. Shiftees

1. Shiftees leaving one program to transfer to another program within the college should accomplish the appropriate shifting form duly signed by the Program Heads, Registrar and VPAA.
2. Shiftees are required to comply clearance from the previous department.
3. Shiftees should request Student's Evaluation from the Registrar and submit a copy to the Dean for proper loading of courses.

F. Returnees

1. Returnees are those students previously enrolled in TPC.
2. Returnees are subject to the Admission Policies enforced at the time they return except the placement examination.
3. Returnees should request Student's Evaluation from the Registrar and submit a copy to the Dean for proper loading of courses.

G. Foreign student

1. Philippine–born alien students must submit photocopy of their Alien Certificate of Registration (ACR) and Native – Born Certificate of Registration (NBCR) which must be certified against the original by the Director of the Commission on Higher Education (CHED), Regional Office VII.
2. Children of naturalized Filipino citizens must submit a copy of the Identification Certificate issued by the Commission on Immigration, certified against the original by the Director of the Commission on Higher Education (CHED), Regional Office VII.
3. Filipino citizens whose family names are of foreign origin must submit their certificate issued by the Local Civil Registrar. Foreign - born alien students must submit a photocopy of their Alien Certificate of Registration (ACR) which must be certified against the original by the Director of the Commission on Higher Education Regional Office VII.

Chapter 4
REGISTRATION/ENROLMENT POLICIES

Section 1. Registration of students shall only be on the regular registration period indicated in the academic calendar.

Section 2. A student must be officially registered in order to receive credit for course work.

Section 3. A student is considered officially enrolled when he/she has the Certificate of Registration duly validated by the Registrar.

Section 4. An admission slip/clearance or report of grades showing the scholastic standing of an old student is required as a credential for enrollment.

Section 5. A student is not allowed to enroll in more than one course during his stay in the College.

Section 6. Rules on sequencing of subjects (prerequisites) in a curriculum are observed and followed in enrollment.

Section 7. Registration of a returning student is dependent on his previous scholastic standing. All subjects taken from previous school where the same course description and units have been automatically credited.

Chapter 5
ACADEMIC INFORMATION

A. Academic Load

Section 1. The study load of a regular student is the number of units prescribed by the curriculum in which the student is enrolled.

Section 2. A student is considered full time or carrying a full load when he carries all subjects prescribed in his curriculum for a particular school semester.

Section 3. Students should follow the study load prescribed by his/her curricula or as assigned and approved by his/her respective Deans and Registrar.

Section 4. During Summer Term, a student may register only in nine (9) units, except for graduating students who shall be allowed a higher load not exceeding 12 units.

Section 2. The Registrar shall determine the schedule for changing adding and dropping of subjects. *(commonly, 1st week of the start of classes/ 5 days from the start of classes)*

Section 3. The student shall then proceed to the Registrar's Office for the issuance of the new Certificate of Registration (COR)

C. Cross Enrollment

Section 1. The term cross-enrolment refers to simultaneous enrolment in two schools within a semester.

Section 2. No simultaneous enrolment in more than two schools allowed

Section 3. A maximum of six (6) units may be taken from the school provided by the total number does not exceed the prescribed units in the curriculum.

Section 4. Cross enrolment in other schools is allowed only when a student is a candidate for graduation or will do the internship/affiliation in the succeeding semester

Section 5. The graduating student must submit a letter of intent to cross-enroll at the Registrar Office noted by his/her respected Head and approved by the college Dean.

Section 6. The Registrar will issue a permit to cross-enrolment approval and evaluation.

D. Shifting from Program to Another

Section 1. Shiftees leaving one program to transfer to another program within the college should accomplish the appropriate shifting form duly signed by the Program Heads, Registrar and VPAA.

Section 2. Shiftees are required to comply clearance from the previous department.

Section 3. Shiftees should request Student's Evaluation from the Registrar and submit a copy to the Dean for proper loading of courses.

E. Withdrawal of the Course in the Program

Section 1. Talibon Polytechnic College recognizes the right of student to withdraw from their subject or course due to valid reason provided he/she must pay the amount due of total school fees:

1. within 1 week of class from start of classes 10%
2. within 2 weeks of class from start of classes 20%
3. after 2 weeks of class from start of classes 100%

F. Validation of Subject/Transfer of Credits

Section 1. A transferee student may apply for advanced credits or transfer of credits for work done in another Recognized Higher Education Institutions.

Section 2. Subjects taken from other schools must be evaluated for subject credits equivalent to TPC subject credits

Section 3. Course taken in other schools by transferees may be credited, provided that the number of units to be credited does not exceed 20% of the total number of units required in the program a TPC.

Section 4. Only the grades in the courses taken in TPC shall be included in the computation of the Cumulative Grade Point Average (GCPA).

Section 5. In order to graduate with honors, 80% of the total credits earned toward the degree must have been earned in residence at TPC.

Section 6. Courses taken from another school should be credited on the first term of studies at TPC. No other course taken from another school may be credited subsequent to this approval.

G. Pre-requisite of Subject/s

Section 1. The rules on sequence of subjects in the curriculum of the course being taken must be followed.

Section 2. Enrolling in and attendance in a subject without passing its prerequisite shall earn the student no academic credit.

Section 3. Waiver of Prerequisite. Graduating student shall be allowed to take the prerequisite subject and higher subject simultaneously with the approval of the Dean and noted by the College Registrar. However, if the student failed the prerequisite subject, the higher subject shall not be given credit. *(CHED Memorandum Order No. 40. S, 2008, re: Manual of Regulations for Private Higher Education [MORPHE], Section 92, upon the discretion of the higher education institution, a graduating student may be allowed additional subject-loads of not more than six [6] academic units in excess of the normal load prescribed by the Institution for the last school term. Likewise, a graduating student may, on a case-to-case basis, be allowed to take several Physical Education [PE] courses in a semester. The request for two [2] or more basic PE subjects should include the following information:*

1. *Name of student;*
2. *Reasons justifying his failure to take PE in the preceding semesters;*

3. *The class schedule and the schedule of the requested PE classes; and*
4. *The endorsement of the Registrar with the statement "Graduating upon completion of load."*

H. Request for the Offering of Non-Programmed Subject/s

Section 1. Subjects not scheduled for a given term may be offered upon written request of at least fifteen (15) students for the undergraduate duly endorsed by the Dean/Program Head and approved by the VP for Academic Affairs to be noted by the College Registrar. Exception to the number of petitioners may be allowed under the following conditions:

1. The student is graduating during the term;
2. When an old curriculum is superseded by the new curriculum;
3. Failure of the student to take the subject/s is attributed to the institution; and
4. The student is willing to pay fourteen (14) students fees with 175.00 per unit.
    a. 3 units (subject units) x 175.00 per unit = 525.00 x 14 students = 7, 350.00

Section 2. The Vice President for Academic Affairs shall approve the request of non-programmed subjects provided that all provisions mentioned above are complied

Section 3. The approved offering of non-programmed subject/s shall be transmitted to the Office of the registrar to be entered into the System for the Official Offering.

Section 4. Procedures:

1. The concerned students, at least fifteen (15), shall write a formal letter addressed to the Vice President for Academic Affairs, and endorsed by the Dean/Program Head. Enumerated in the request

letters are the names of requesting students, subjects requested, reasons of request and the instructor of the subjects.

2. The VP for Academic Affairs act on the request letter approved or disapproved.
3. When approved, copy of the letter request, endorsement and approval will be forwarded to the Registrar's Office for System encoding.
4. The student will be issued the Certificate of Registration.
5. The student shall pay the payable amount at the Municipal Treasurer's Office in full amount or every major exam (prelim, midterm, semi-final and final exam).

I. Clearance

Section 1. Student can secure clearance from the Registrar's Office before the Final Examination of the 2nd Semester during the Academic Year and must completely secure all the required signatories.

J. Examinations

Section 1. The college has four (4) major examinations to assess the learning of student, Prelim, Midterm, Semi-final and Final Exams.

Section 2. Students who are caught cheating or doing any similar acts in any examination test or quiz shall be punished in accordance with pertinent provisions of this Student Manual.

Section 3. A student who has received a passing grade in a given course in not allowed reexamination for the purpose of improving his/her grades.

L. Residency

Section 1. Students' enrolment for residency to be classified and considered as bonafide students.

1. The student updates his/her Student Profile by filling out TPC Information Sheet.
2. The student informs/contacts the Program Adviser that she/he is enrolling for residency: Academic/Non- Academic.
3. The Program Adviser does advising through face to face or online.
4. The student informs the Office of the College Registrar to facilitate the enrolment process for residency.
5. The Registrar's Office reviews the student's records before enlisting the student.
6. If the student has completed the enrolment process, the residency status is granted.

Section 2. The undergraduate residency comes in two forms-the Academic Residency and the Non-Academic Residency. Those who are on academic residency are deemed as bonafide students for the covered term. Students on residency will have their IDs validated for the covered term.

Section 3. The Academic Residency (AR) is intended for students who have no other course to enroll in their program but need to enter the campus for consultation with faculty members. As example would be a student whose thesis has been deferred.

Section 4. It is important to note that a student who does not intend to enroll for a specific term for whatever reason, but still has remaining units to enroll, is not allowed to enroll in Academic Residency, but should file for a Leave of Absence (LOA).

Section 5. A student on LOA may not enter the campus. As such, no residency, whether academic or non-academic, shall be granted to students on LOA. Students not enrolled but need to frequently enter the campus shall be required to enroll in undergraduate residency.

Section 6. Non-Academic Residency (NAR) is intended for students who need to enter the campus for co-curricular activities, as determined by the Dean of Student Affairs. The NAR is intended for the summer term only. A student, on his own, may not enroll for NAR. It is the Director of Student Affairs who initiates enrolment for NAR.

Section 7. On the other hand, enrolment in NAR results from an office-to-office transaction involving the Dean of Student Affairs and the College Registrar.

Section 8. TRANSFEREES must have at least one (1) year residency before graduation.

M. Maximum Residency

Section 1. The maximum residence Rule (MRR) states that students who fail to finish the requirements of a degree program of any college within a prescribed period of actual residence shall not be allowed to register further in that college. Under meritorious cases, extension of residency may be granted. The Program Head/Dean of each Program shall designate the approving authority for such extensions. Each extension granted shall be reported to the President through the Vice President for Academic Affairs.

N. Enforcing a New Curriculum

Section 1. When a new curriculum is enforced, only new students or freshmen shall be covered.

Section 2. A student shall follow the same curriculum that he started on within the maximum length of time allowed for residence.

Section 3. If a student fails to finish the course within the prescribed maximum number of years of residence, he shall be required to follow the new curriculum.

O. Leave of Absence

Section 1. Prolonged leave of absence must be sought by a written petition to the Dean/Program Head and recorded by the College Registrar. The petition must state the reason for which the leave is desired and must specify the period of the leave which shall not exceed one (1) academic year.

Section 2. Withdrawal from the College without formal leave of absence may cause the curtailment of entire withdrawal of the registration.

Section 3. A student who withdraws his/her registration shall be entitled to withdraw his/her credentials submitted as requirement for enrollment.

P. Selection of Honor Students

Section 1. Students who are candidates for graduation with honors must have completed 100% of the total units required for graduation, and must have been in continuous full-time residence.

Section 2. To qualify in the ranking of honors, a student must have at least a general weighted average of 1.75 in all subjects with no grade below 2.00 except in NSTP.

Section 3. The student must have no derogatory records.

Section 4. The selection of honor student shall be deliberated upon by a committee composed of the class advisers of the graduating students, Dean of the College, Registrar and Vice President for Academic Affairs.

Section 5. A student from the Degree program shall graduate with honors as follows:

1. Summa Cum Laude – 1.0 to 1.25 (General weighted average) with no grade below 1.5 in all subjects except NSTP
2. Magna Cum Laude – 1.26 to 1.50 (Gen. weighted average) in all subjects except NSTP
3. Cum Laude - 1.51 to 1.75 (Gen. weighted average) in all subjects except NSTP

Q. Special Awards

Section 1. This is given to the graduating student with grades below 2.0 to 2.5 who obtained any of the following weighted average grade: *(No NC, DR grades)*

Average	Corresponding Awards
1.00-1.25	Gold
1.26-1.45	Silver
1.46-1.60	Bronze

Section 2. For transferees, in order to graduate with honors, 80% of the total credits earned toward the degree must have been earned in residence at TPC.

R. Other Academic Awards

1. Best in Capstone/Research/Thesis - This honors individuals or teams whose research demonstrates exceptional innovation, scholarly excellence, and significant impact on their respective field or discipline.

T. Medium of Instruction

Section 1. English is generally used as the medium of instructions in the college in all subjects except subjects to be taught in Filipino.

U. Student's Rights

Section 1. In addition to Section 9 of the Education Act of 1982, which grants students the right to access their school records and obtain official documents, other legal bases include the Data Privacy Act of 2012 (Republic Act No. 10173), which ensures students' control over their personal information, and the Civil Code of the Philippines, which protects privacy rights. The Family Code of the Philippines also reinforces privacy, especially when students reach legal age. These laws collectively guarantee students' rights to access and control their school records

Section 2. A student of legal age (18 or older) in the Philippines can deny their parents access to their school records. Under the Data Privacy Act of 2012 (Republic Act No. 10173), individuals have control over their personal data, and schools must obtain the student's consent to disclose information to third parties, including parents, unless required by law. Once a student reaches legal age, they are the sole authority over their academic records, unless there is a legal basis for disclosure.

V. Issuance of a Certification, Diploma, or Record to a Proxy

Section 1. Under the Data Privacy Act of 2012 (Republic Act No. 10173), personal data, including academic records, can only be disclosed to a third party, such as a proxy, with the explicit consent of the data subject, typically provided through written authorization. Section 9 of the Education Act of 1982 (Batas Pambansa Blg. 232) grants students the

right to access their school records and obtain official documents, implicitly allowing them to authorize a proxy to secure these records on their behalf. Additionally, the Civil Code of the Philippines (Republic Act No. 386) permits the delegation of authority through a Special Power of Attorney (SPA), which is commonly required when a proxy is appointed to act on behalf of the student in obtaining academic documents.

Chapter 7
GRADUATION

A. Graduation Requirements

Section 1. Students must file a formal application as candidates for graduation with the office of the Dean of their respective colleges.

Section 2. They shall be recommended for graduation by the Program Head/Dean of their respective colleges after having satisfied all academic and other requirements prescribed for graduation.

Section 3. During the first three (3) weeks after the opening of classes in each semester, each Dean or the duly authorized representative, shall submit to the College Registrar a list of candidates for graduation at the next commencement.

Section 4. The College Registrar, in consultation with the Program Head/Dean or departments concerned, shall then inquire into the academic records of the candidates to ascertain whether the candidate has any deficiency to make up and whether she/he has completed all other requirements for graduation.

Section 5. The student must satisfactorily complete any of the components of the National Service Training Program (NSTP) as maybe provided by law.

Section 6. If there is any question regarding a candidate, her/his name should not be deleted from the list of candidates for graduation, but a footnote to that effect should be made.

Section 7. Ten (10) weeks before the end of a semester, the College Registrar shall publish a complete list of duly qualified candidates for graduation for that semester.

Section 8. All candidates for graduation must have their deficiencies settled and their records cleared not later than five (5) weeks before the end of their last semester.

Section 9. A candidate for graduation who started his studies under a curriculum more than ten (10) years old shall be governed by the following rules:

1. those who had completed all the requirements of the curriculum but did not apply for, nor were granted, the corresponding degree or title shall have their graduation approved as of the date they should have originally graduated.
2. those who had completed all but two (2) or three (3) subjects required by a curriculum shall be made to follow any of the curricula enforced from the time they first attended the College to the present.

3. No student shall be graduated from the College unless s/he has completed at least one (1) year of residence work and total units of course requirements.

B. Academic Requirements

Section 1. A student who completes the minimum required academic units for the course shall be recognized as graduate. He is obliged to attend the graduation ceremonies except for excusable reasons. No student shall be given academic credits for any given course unless he has been duly enrolled, regularly attended classes, submitted all class requirements, and passed all required examinations.

C. Administrative Requirements

Section 1. The student is required to have complied with the following administrative requirements:

1. Submitted all the academic credentials (Form 138, Transcript of Records) required by the Registrar.
2. Settled all property and monetary accountabilities evidenced by the submission of Clearance Form duly signed by the following:
    a. Student Supreme Council Treasurer, for obligations to student organizations;
    b. Office of Student Affairs, for obligations or accountabilities to college student programs, projects and activities;
    c. Librarian, for clearance of Library book, periodical and multi-media accountabilities and obligations;
    d. Adviser, for subject requirements
    e. College Dean, for any unsettled academic requirements

f. Property Custodian for clearance of book, material, supply, equipment, and other physical accountabilities

g. College Treasurer when all school fees are settled
h. Registrar when cleared of all financial and academic obligation
i. President, for validation of the Registrar's signature.
j. Settled financial obligations related to graduation expenses.

3. Graduating students are required to attend the graduation ceremonies.
4. A Special Order duly sanctioned by the Commission on Higher Education can only be granted after completion of all academic and administrative requirements of the college.

Chapter 8
TRANSFER CREDENTIALS

Section 1. A student who desires to leave TPC shall be granted Transfer Credential by the Registrar. A clearance shall be accomplished indicating that the student is cleared from any financial obligations as well as proper accountability.

Section 2. Procedures:

1. The student secure and accomplish the Request Form.
2. Proceed to the Treasurer's Office for the payment.
3. Submit duly accomplished request and payment receipt to the Registrar's Office.
4. Registrar receives duly accomplished request and

verifies the student records.

5. Registrar's Office prepares Transfer Credentials within 7 to 15 working days and records the same the logbook.
6. Student receive the documents and sign in the logbook.

Chapter 9
RETENTION POLICIES

Section 1. All students enrolled in college for the first time, are considered in good standing. All other students are either in good standing or on probation, as defined below.

Section 2. To be considered in good standing, every student must maintain, at all times, an over-all grade average of at least 2.0 average for board programs and 3.0 average for non-board programs.

Section 3. Every student will be evaluated by the Deans/Program Heads every end of the semester.

Section 4. If the student does not meet the minimum grade requirements, the student is advised to shift to another program within the college.

Section 5. A student must pass at least 75% of the total number of units enrolled during the semester.

Section 6. When a student incurs a failing mark in less than 50% of the units enrolled, he is given a warning by the Dean/Program Head and will be under probation for 2 semesters.

Section 7. A student who obtains an "NC", "DR", "5.0"

mark in 50% of his subject load shall be placed on probation for the succeeding semester with a reduced load of 15 units.

Section 8. A student under probation status will be allowed to enroll a maximum of 18 units.

Section 9. When a student fails 75% to 100 % of the total units, he/she enrolled, he shall be dismissed permanently from the program.

Chapter 10
ADMISSION/ENROLMENT PROCESS

Section 1. New Students

Step 1. GUIDANCE OFFICE

1. TPC Application Form. (Link will be posted at the Guidance, TPC, SAO, SSG fb page.)
2. Admission exam

Step 2. REGISTRAR'S OFFICE

Documents Required

1. Admission result
2. (Freshmen) Good moral and Grade 12 Report Card/Form 137 with at least 2nd Quarter grade (Original)
3. (Transferee/s) Transfer of Credentials (Hon. Dismissal & TOR) (Original)
4. PSA Birth Certificate (Original)
5. Duly accomplished Student's ID Form
6. 1 Long brown envelope
7. 1 Long white folder
8. 1 pc 2x2 picture (with name & amp;

course indicated at the back)

Step 3. DEAN/PROGRAM HEAD'S OFFICE:

1. program requirements
2. encoding
3. evaluation
4. subject loading

Step 4. NSTP Office

1. NSTP enrollment form (ROTC/CWTS)

Step 5. STUDENT SERVICES

1. School Clinic
    a. Drug Test Result
    b. Online Medical Form
    c. Medical Certificate with required laboratories (BS Crim students)
2. School Library
    a. 1x1 ID picture
3. Guidance and Counseling
    a. Student Inventory Google Form
4. Supreme Student Government
    a. SSG Fee

Step 6. REGISTRAR'S OFFICE

1. Certificate of Registration (COR)

Section 2. For continuing student

Step 1. REGISTRAR'S OFFICE

1. Grade Slip

Step 2. DEAN/PROGRAM HEAD'S OFFICE:

1. program requirements
2. encoding
3. evaluation

4. subject loading

Step 3. STUDENT SERVICES

1. School Clinic
    a. Drug Test Result
    b. Online Medical Form
    c. Medical Certificate with required laboratories (BS Crim students)

2.School Library
    a. 1x1 ID picture

2. Guidance and Counseling
    a. Student Inventory Google Form
3. Supreme Student Government
    a. SSG Fee

Step 6. REGISTRAR'S OFFICE

1. Certificate of Registration (COR)

Chapter 11
COLLEGE ADMISSION AND ENROLLMENT POLICY FOR PERSONS WITH DISABILITY (PWD) AND SOLO PARENTS

Section 1. Purpose. The aim of this policy is to provide Persons with Disabilities (PWD) and Solo Parents with equal access and opportunity for admission, enrollment, and academic achievement at Talibon Polytechnic College. TPC endeavors to provide a diverse, inclusive, and caring learning environment for all its students.

seeks to create an environment where every student can achieve their full potential.

ARTICLE III
STUDENT SERVICES

Chapter 1
Library Services

A. Rules and Regulations

Section 1. All students must tap their school ID with a barcode on the RFID system upon entering the library;

Section 2. Silence must be observed; idle conversations, boisterous laughter, and other unnecessary noises that disturb other library users must be avoided. Cellular phones should be set to silent mode before entering the library, and answering or making calls should be done outside;

Section 3. Eating, smoking, sleeping, and bringing liquid drinks are prohibited;

Section 4. The library should be kept clean and orderly. Chairs and bookstands must be returned properly after use;

Section 5. All reading materials should be handled with care. Stealing, mutilating pages, and other forms of vandalism are serious offenses and will be dealt with administratively;

Section 6. Books and other materials or references cannot be borrowed without an ID with a barcode;

Section 7. Leave books on the table after use; reserved books should be placed on the circulation counter;
Section 8. The library is not responsible for personal belongings;

Section 9. Present your belongings for inspection before leaving the library.

B. Code of Conduct
Section 1. Respect for Others: Maintain a quiet and respectful environment for all library users. Refrain from loud conversations, disruptive behavior, and use of mobile phones in quiet areas.

Section 2. Proper Use of Library Resources: Handle books, computers, and other library materials with care. Return items to their proper places after use.

Section 3. Cleanliness: Keep the library clean by disposing of trash properly and avoiding food and drinks in designated areas.
Library Etiquette

Section 4. Noise Levels: Keep noise to a minimum. Use headphones when listening to audio and set mobile phones to silent mode.

Section 5. Personal Belongings: Do not leave personal belongings unattended. The library is not responsible for lost or stolen items.

Section 6. Study Areas: Be considerate of others in study areas. Use designated areas for group work and respect silent zones.

Section 8. Library Computers: Use library computers for research and academic purposes only. Follow the library's computer usage policy.
Borrowing and Returning Items

Section 9. Library Card: Always present your library card when borrowing items. Do not lend your card to others.

Section 10. Loan Periods: Adhere to the loan periods for borrowed items. Return items on time to avoid fines and ensure availability for other users.

Section 11. Renewals and Reservations: Utilize online or in-person services for renewing or reserving items.
Conduct in Special Areas

Section 12. Quiet Zones: Absolute silence is expected in designated quiet zones. Use these areas for individual study and research.

Section 13. Group Study Rooms: Reserve group study rooms in advance. Keep noise levels reasonable and vacate the room promptly at the end of your reservation time.

C. Library Hours
Section 1. The library is open from 8:00 AM to 5:00 PM, with no noon break, from Mondays to Fridays, except on national holidays, Saturdays, and Sundays.

D. Library Services

Section 1: Library Orientation

Familiarizes students and new users with the library's collection, including books, journals, digital resources, and databases. Explains the services offered and outlines the rules and guidelines for using the library.

Section 2. Borrowing and Returning

Students may borrow up to 3 books at a time for a maximum of 3 days. Reserved books are available for overnight use only from 4:00 PM onwards.

Section 3. TPC Library Website

It serves as a gateway to the library's collections, services, and resources, offering a convenient and accessible way for users to engage with the library and enhance their learning, research, and recreational pursuits.

Section 4. Virtual Services

Available through email, phone calls, and mobile. These services help you save time on your research. Simply email us for assistance with retrieving your topic, or contact us via our mobile number.

Section 5. TPC Online Library

Provide convenient, 24/7 access to a wide range of digital resources—such as e-books, e-journals, research databases, multimedia content, and other academic or recreational materials—through the internet.

E. Library Facilities

1. Wi-Fi Facilities
2. Circulation Counter
3. Library Holdings
4. Periodical Section

5. Computer Workstations
6. Electronic Bulletin Board Display
7. Emergency Exit and Lights
8. Baggage Counter

Chapter 2
Health Services

A. Health Services Requirement Upon Enrollment

Section 1. New Criminology Students shall undergo general physical check-up and comply all the necessary laboratories needed by securing medical clearance such as but not limited to:

1. Blood test
2. Urine test
3. Chest X-ray
4. Hearing test
5. Eye test
6. Pregnancy test (women)
7. Hepatitis B test
8. Drug test

Section 2. All students (new, continuing, shiftees, returnees, and transferees) are required to fill-up and update their health status report through a google link sent by the Health Services Unit through the online site of Talibon Polytechnic College-Clinic.

Section3. All students must submit a Drug Test result during admission

B. Medical and Dental Examination and Consultation

Section 1. The Medical Services Unit maintains and protects the general health of the students and gives first aid treatments.

Section 2. The Medical Services Unit receives students for medical consultation and medical assessment through College Physician every Tuesday and Thursday, 1:00-5:00PM.

Section 3. All students who wish to have dental consultation shall visit the Health Servies Unit every Monday 7:00AM-5:00PM. Students who received dental recommendation form the College Dentist will be scheduled based on the desired procedure.

Section 4. Students who have medical concerns and other health related concerns may use the Talibon Polytechnic College-Clinic online platform account for Tele-Consultation.

Section 5. The Medical Health Services Unit provides primary health care services administered by licensed medical, dental, and allied professionals made available to all students. Adequate facilities for health care and updated health records are kept and maintained confidential basing on Data Privacy Act of 2012

C. Medical Services

Section 1. The Medical Services Unit provides free medical services to students as follows:

1. Attend to mild to moderate health cases.
2. Medical exam and consultation (except laboratories)

3. Medicines in accordance with the resource capability of the institution
4. Dental consultation with selective procedures
5. Student Group Insurance

Section 2. The Medical Services Unit takes care of the supervision of campus sanitation, prevention and control of communicable diseases and health education.

Section 3. In coordination with other agencies, the Medical Services Unity shall immediately render services to students in need of serious attention.

D. Pregnant Monitoring and Leave of Absence Flow

Section 1. Pregnant students shall visit the Health Services Unit for profiling and record keeping.

Section 2. Pregnant student shall file the Leave of Absence one (1) month before their expected date of delivery. Pregnant student with medical issues can file their leave of absence presenting their doctors medical certification.

Section 3. Post partum student shall submit a photocopy of their child's live birth upon their return of class.

E. Student emergencies

Section 1. Student with emergency need will be assess in the Health Services Unit. If emergency referral may arise, the Health Services Unit shall call the emergency contact person to notify the student situation.

Section 2. Those with active contagious disease shall visit the Health Services Unit for clearance before admission.

Chapter 3
GUIDANCE AND COUNSELING

The Guidance Counseling Center (GCC) is a unit under the Office of the Student Affairs and Services Division (OSAS) that provides various programs and activities to support the holistic development of students. The GCC aims to help students cope with their academic, personal, social, and career concerns through counseling, testing, information dissemination, consultation, and referral services. The GCC also coordinates with other units and stakeholders to promote a conducive and supportive learning environment for the students.

A. Individual Inventory Service

Section 1. This service involves a continuous process of gathering pertinent data, information and records about students as a basis for helping them understand themselves better and also for better responding to their needs.

Section 2. All data and pertaining information that have been gathered from each student are entered in the cumulative record.

B. Information Service

Section 1. The GCC secures information and makes these available to students for their holistic development.

Section 2. All data and pertaining information that have been gathered from each student are entered in the cumulative record

Chapter 5
SCHOLARSHIP UNIT

Section 1. The college provides student scholarship and financial assistance in various forms and accessible modalities. Guidelines, Screening and monitoring procedures are explained during orientation, and widely disseminated.

Section 2. The Scholarship Unit is a service unit under the Office of the Student Affairs and Services.

Section 3. Functions and Services of Scholarship Unit:

1. Solicits scholarships or grants from public and private agencies, philanthropic individuals and civic organizations.
2. Develops criteria and procedures for the selection of scholars/grantee and assists the funding agencies pre-screen applicants and/or monitor the academic and billing status of qualified applicants.
3. Coordinates with the Office of the College Registrar in the preparation of enrolment and grade reports of grantees and with the Accounting Office in the preparation of accounting/ billing reports of the TPC funded and external funded scholars.
4. Monitors scholars' academic performance to ensure that the scholarship or assistance is given to appropriate and deserving recipients.
5. Facilitates enrolment of scholars from various grants and assists the scholars/grantees in processing of relevant documents.
6. Orients first year students and transferees regarding scholarship and publishes information on various scholarship grants available for students.

3. Recording video or taking photos without permission
4. Disrupting classes or official activities
5. Unauthorized solicitation or distribution of flyers
6. Smoking outside designated smoking areas

F. Visitors Exit Procedure

Section 1. When leaving the TPC campus:

1. Return the Visitor Pass to the security post
2. Log out in the Visitor's Logbook with time of exit
3. Any items brought in and recorded must also be logged out (if applicable)
4. If accompanied by a staff member, exit clearance is confirmed by that staff

G. Building Access

Section 1. Access to academic building is limited to operational hours.

Section 2. Unauthorized access to restricted areas is prohibited such as access to laboratories, server rooms, and other restricted areas is limited to authorized personnel only.

H. Accessibility of Persons with Disability (PWD)

Section 1. Accessibility for Persons with Disabilities (PWDs) Talibon Polytechnic College is committed to the full inclusion and support of PWD students, staff, and guests.

1. Physical Infrastructure
    a. Ramps with non-slip surface and handrails installed in:
        1.) Main Building

K. Preventive Reminders for Students

Section 1. Stay only in assigned classrooms, laboratories, or approved student areas (e.g., Library, Study Lounge).

Section 2. Wait for your next class in designated waiting zones, not staircases or corridors.

Section 3. Avoid crowding building entrances or walkways.

Fire Emergency Procedures

1. Activate the nearest fire alarm or notify a Security Guard or Safety Marshal.
2. Evacuate the building calmly using the designated fire exit routes posted near doors.
3. Do not use elevators.
4. Assist PWDs and vulnerable individuals if safe to do so.
5. Proceed to the primary evacuation area (Covered Court) or secondary site (Engineering field).
6. The Building Marshal will conduct a headcount.
7. Fire extinguishers may only be used by trained staff if the fire is small and manageable.

Emergency Earthquake Procedures

During the earthquake:

1. Drop, Cover, and Hold On – take shelter under a sturdy desk or against an interior wall.
2. Stay away from glass, shelves, or heavy equipment.

After shaking stops:

1. Calmly evacuate the building — do not run or push.
2. Proceed to the nearest open evacuation zone.

Chapter 7
SPORTS AND ATHLETICS

The Office of Sports and Athletics at Talibon Polytechnic College is dedicated to promoting physical fitness, athletic development, and fostering a competitive spirit among students. It focuses on creating a vibrant sports culture, enhancing teamwork, and building discipline through both individual and team sports.

Section 1. Objectives

1. Foster a culture of sportsmanship across all local colleges and university.
2. Promote student participation in various athletic activities, cultivating physical fitness and teamwork.
3. Enhance students' competitive skills through continuous training, practice, and participation in local, regional, and national sports competitions.
4. Develop athletic excellence by supporting student-athletes in their pursuit of excellence both on and off the field.
5. Inspire teamwork and leadership through organized sports events and tournaments.
6. Recognize and reward outstanding athletes by offering incentives like academic credits or financial rewards to students with exceptional performance and sportsmanship.

Section 2. Services

1. Organizes continuous training and coaching programs for student-athletes and aspiring athletes to improve their skills in various sports.

2. Creativity and Expression – unique style and ability to convey emotions or stories.
3. Discipline and Commitment – willingness to practice regularly and attend rehearsals.
4. Teamwork – ability to work well with other performers and staff.
5. Professionalism – showing respect, punctuality, and a positive attitude.
6. Physical Fitness – stamina and energy to perform effectively (if required by the role).
7. Adaptability – ability to adjust to different performance styles, themes, or settings.

B. Singer/Vocal

Singer or Vocal is a person who uses their voice to produce music, often performing songs for entertainment, expression, or communication.

Section 1. Qualifications

1. Vocal Ability – clear, strong, and controlled voice with good pitch and tone.
2. Musicality – sense of rhythm, timing, and ability to follow melodies.
3. Expression – ability to convey emotions and meaning through singing.
4. Stage Presence – confidence and connection with the audience.
5. Repertoire – knowledge of different songs and music styles.
6. Breath Control – stamina to sustain notes and sing smoothly.
7. Pronunciation and Clarity – clear delivery of lyrics.
8. Professionalism – punctuality, respect, and dedication to practice and rehearsals.

9. Adaptability – ability to adjust to different genres, keys, or performance settings.

C. Dancers

Dancer is a person who uses body movements, often to music, to express emotions, tell stories, or entertain an audience.

Section 1. Qualifications

1. Technical Skills – mastery of dance steps, techniques, and styles.
2. Rhythm and Timing – ability to move in sync with the music.
3. Flexibility and Coordination – control and ease of movement.
4. Expression – ability to convey emotions and tell a story through dance.
5. Stage Presence – confidence and ability to capture the audience's attention.
6. Physical Fitness – strength, stamina, and endurance for performance.
7. Creativity – adding unique style or interpretation to movements.
8. Adaptability – ability to perform different dance genres and adjust to choreography changes.
9. Teamwork – working well with partners or groups in synchronized performances.
10. Professionalism – dedication, discipline, and respect during practice and

D. Drum and Bugle Corps

drum and bugle corps is a marching musical group that performs using drums, bugles (brass instruments), and sometimes other percussion, often combining music with choreographed marching formations.

Section 1. Qualifications

1. Musical Skill – ability to play the assigned instrument (drum, bugle, or other percussion) correctly and in tune.
2. Rhythm and Timing – strong sense of beat to stay in sync with the group.
3. Marching Ability – coordination to play while moving in formation.
4. Discipline – focus, self-control, and ability to follow instructions.
5. Teamwork – working well with other members to create a unified performance.
6. Physical Stamina – endurance to march and play for extended periods.
7. Precision – accuracy in both music and marching movements.
8. Adaptability – ability to adjust to different tempos, formations, and performance conditions.
9. Commitment – willingness to attend regular practices and performances.
10. Professionalism – punctuality, respect, and dedication to the group's goals.

Note: For interested students; please provide your own Musical instruments (e.g. Lyre, snare drums, bass drums, tenor drums, cymbals, Bugles and horns)

Section 7. Funds, Appropriations and Budget of SSC

a. The general funds of the SSG shall consist of the student fees collected during every registration period.

b. All funds collected shall be deposited in a bank. All money collected from students for a special purpose shall be treated as a trust fund and shall be paid out for such purpose only.
c. All other income derived from other sources and other student fees shall likewise be treated as trust funds and shall be appropriated for special projects duly approved by the SSG upon a resolution.
d. Immediately upon being elected and duly qualified to office and within a specific period, the SSG officers shall plan and prepare a budget for the proper appropriation of funds of the student government. This budget shall be subjected to a budget hearing by a budget committee composed of the Budget Officer, Internal Audit Director, Director of Student Affairs and Services, SSG Adviser, and SSG President.
e. No funds of the SSG shall be appropriated unless its appropriation is sanctioned under the approved budget.
f. Budget appropriations shall be governed by the provisions of the constitution and by-laws of the student government.
g. SSG will submit a Liquidation Report to the Officer of the Student Affairs and Services

of the students are ensured. Examples are:

1.) Retreat or recollection
2.) Conventions, seminars, trainings, teambuilding, conferences
3.) Volunteer programs/relief operations
4.) Advocacy projects and campaigns
5.) Sports activities
6.) Activities initiated by accredited student organizations
7.) Interschool tournaments/competitions
8.) Culture and arts competition

Section 2. The following are the requirements/checklist that the students/faculty must secure before their off-campus activity:

a. For Curricular Off Campus Activities, the course syllabus must reflect the relevance of requiring an educational tour and field trip Conventions, seminars, trainings, teambuilding, conferences
b. Duly notarized consent of the parents or student's guardian
c. Medical clearance of the students duly signed by HEI or government physician
d. First Aid Kit
e. Designation or order from the Administration indicating the Personnel-In-Charge's (PIC) role and responsibilities during and after the activities. Personnel-In-Charge must be an employee of the HEI and must have an appropriate qualification and experience regarding the activity. He/She must also have a first aid and medical emergency training. Ratio of PIC is 1:35 – 50.
f. Duly approved schedule of fees and

recognition if it is sponsored by an accredited student organization after it has been registered in the Office of Student Affairs and Services.

Section 2. The printing of any publication may use existing funds of the organization if and only if it has been given due recognition. Cost of printing and materials accrued by an organization without official sanction will be charged to whoever is responsible.

Section 3. To obtain official recognition, the following procedures must be followed:

a. The student organization/college publication must present a proposal which shall specify the following:
b. The purpose of the periodical or newsletter congruent to the field of interest or specialization of the sponsoring group;
c. A listing of the editorial board of the newsletter or periodical. In case competitive exams and screening are necessary, an interim board must be duly appointed by the officers and/or adviser of the organization and their names must be included;
d. The number of copies to be printed and circulated as well as the recipients of the publication;
e. A budget with a breakdown of cost duly certified by the president/chairman and treasurer of the organization sponsoring the publication;

absence of one member as mentioned above, the Faculty Adviser has the right to appoint his/her Editorial-In-Chief solely based on the aforementioned qualification and meet the basic requirements.

b. Only regular, bonafide students having general weighted average of "2.5" or better and without any of "5" or "Inc." or without having been dropped in any course during the previous semester are qualified to take the exam. Candidates must present a written certificate from the Guidance Counselor/ Discipline Officer stating that they have not been the subject of disciplinary action or misconduct of any kind and that they are responsible persons of good character.
c. The student receiving the highest general average rating in the examination shall ipso facto qualify as editor-in-chief. In case of tie, the journalistic training and experience of the candidates shall be taken to break the tie.

d. No editor-in-chief shall be allowed to hold any major position in any accredited student organization in the college. This is to ensure his/her total commitment to the Student Publication office.
e. The other members of the Student Publication staff shall be nominated by the editor-in-chief from among the top-ranking examinees in the editorial exam subject to the approval of the Faculty Adviser.

absence of the editor-in-chief, the signature of the adviser with a reasonable explanation for the proxy attached will be accepted. In the absence of the managing editor (business manager), the signature of the members of the Editorial Board upon consultation with the adviser will validate the requisition.

Section 13. All expenditures must be supported by official receipts to be submitted to the Business Manager for accounting.

Section 14. Facilities of the Student Publication Office may be utilized only by members of the Editorial Board and their staff. Publication equipment and supplies may not be taken out of the office or venue where the staffers hold office.

Section 15. Violation of rules regarding publication policies designed by the editorial board and policies on professional journalism as specified under Sec. 8 of this Chapter is subject to suspension or expulsion and in extreme cases, disciplinary action.

ARTICLE IV
CONDUCT AND DISCIPLINE

Chapter 1
PRELIMINARY

Section 1. The Provisions of this part on matters pertaining to rules of discipline with the jurisdiction of the College Discipline Officer or Office of the Student Affairs and Services shall be reconciled according through an adopted system of approval without prejudice to consultation with

students duly represented by their leaders.

Section 2. At all times, every student must promote and maintain the peace and tranquility of the College by observing the rules of discipline, and by exerting efforts to attain harmonious relationships with fellow students, the teaching and academic staff and other school personnel

Section 3. The investigation, disposition and corresponding sanctions of students' disciplinary cases shall follow the proceeding set by the proper forum established herein.

Section 4. All officials, faculty and staff and security force of the College are mandated to enforce and supervise overall compliance to the provisions of this part in their respective areas of responsibilities. All student officers may be called upon to assist in the enforcement of the rules of discipline whenever feasible and/or relevant.

Section 5. Pursuant to the provisions of this chapter, faculty and persons charged with the supervision of students shall be deemed persons in authority and should, therefore be accorded due respect and protection.

Section 6. The disciplining authority who is the College Discipline Officer or the Office of the Student Affairs and Services shall mete out the punishment recommended by the constituted bodies under this part in accordance with due process.

Section 7. In meting out punishments, the same penalties shall be imposed in each case. A progressive system of punishment shall be maintained.

Section 8. Rights of Respondents. In addition to the rights guaranteed under Article I Chapter 3 of this Manual, every respondent shall enjoy the following specific rights:

a. To be subjected to any disciplinary penalty only after the requirements of due process shall have been fully complied with;
b. To be penalized only on a basis of substantial evidence/s the burden of proof being with the person filing the charge;
c. To be penalized on the basis of evidence/s introduced at the proceedings of which the respondent has been properly appraised and given the opportunity to rebut the same;
d. To enjoy pending final decision on the charges, all his/her rights and privileges as a student. Subject to the recommendation of the College Discipline Board (CDB) or the Office of the Student Affairs and Services, the College Discipline Officer or OSAS Director may order the preventive suspension of the respondent for not more than fifteen (15) days where suspension is necessary to maintain the security of the College;

e. The College Discipline Board is composed of the following as appointed by the College President:
    1. College Dean concerned (Voting)
    2. Student Government representative (Voting)
    3. College Guidance Counselor (in case of tie)
    4. College Discipline Office (Voting)
    5. Director of Student Affairs and Services (Voting)
    6. Vice President for Academic Affairs (Approving Officer)
f. To defend himself/herself personally or by counsel, or by representative of his/her own choice. If the respondent desires, but is unable to secure the

services of counsel, he/she shall manifest the fact at least two (2) days before the date of hearing and request the College Discipline Board or Office of the Student Affairs and Services to designate a counsel for him/her from among the faculty members and staff of the College.

Chapter 2
NORMS OF CONDUCT

Section 1. Every student must be imbued with patriotism and nationalism, love of humanity, respect for human rights, civic conscience, ethical and moral values, moral character and self-discipline in keeping with the man dates of the educational system under the Philippine Constitution.

Section 2. For the guidance of all concerned, the following norms of conduct and discipline of student are hereby promulgated, namely:

a. Moral Character. A student is imbued with moral character if among other qualities:

    1. Has learned to act, live and think as a person whose values, attitudes and convictions are in accord with the Universal Ethical Norms of Right Reason and the accepted values and levels of conduct in the society where he lives;
    2. Is honest to himself/herself, accepting his/her shortcomings and striving to improve or change them;
    3. Is fair and just in his/her dealings with his/her fellowmen;
    4. Lives by the precepts of love, justice,

compassion and concern for other; and
5. Respects and defends the right of others as he/she wants his/her own rights to be respected and defended.

b. Personal/Self Discipline. A student is imbued with personal self-discipline if among other qualities:
1. Is devoted to the fulfillment of all obligations and considers his/her rights as a means for the fulfillment of such obligations;
2. Learns to forge the enjoyment of certain rights and privileges that others' needs maybe benefited;
3. Resolves problems and conflicts without prejudicing others;
4. Is tolerant of others; humble enough to accept opinion that may be better than his/her;
5. Avoids vices, e.g. gambling, drinking alcoholic beverages, illegal drugs, sexual excesses and aberrations, etc. and
6. Guides and controls his/her life, actions and emotions.

Chapter 3
NON-ACADEMIC POLICY

A. School Identification Card

Section 1. All students are required to secure the official student identification card immediately and must be validated by the College Registrar after enrolment. The school ID card is to be worn upon entry and while inside the school premises at all times. The loss of a School ID should be promptly reported to the Student Affairs Services either in written or verbal form. It must be accompanied by

an Affidavit of Loss. The OSAS will issue a temporary entry pass which will serve as a student pass until the new school ID is issued.

Section 2. In case of shifting from one course to another, the School ID must be surrendered to the Office of the Student Affairs and Services. The OSAS will issue a temporary entry pass which will serve as a student pass until the new school ID is issued.

Section 3. In case of graduate students or students opted to transfer to other institutions or school, students must surrender their school ID at the Office of the Student Affairs and Services upon signing the transferred-out clearance.

B. School Uniform

Section 1. All students are required to wear the prescribed school uniform on Mondays, Tuesdays, Thursdays, and Fridays but must wear decent and appropriate attire in compliance with the College Dress Code on other days. Violators shall be brought to the Office of the Student Affairs Services office for proper action before they will be allowed entry to their classes. The faculty members are important partners of the Office of the Student Affairs Services office in monitoring the compliance of students to this and other school policies.

Section 2. For the wearing of On-the-Job Training (OJT)/Internship/Practicum uniforms, the department/program must submit to the Office of the Student Affairs and Services a letter with the design/image of the uniform and the list of students enrolled in the course for the semester for approval and coordination with the security office.

opted not, they will seek approval to the Director of the Office of the Student Affairs and Services.

Section 4. Members of LGBTQIA+ community are allowed to their preferred haircut but limited to its color and design but subject to the approval and instruction of the Director of the Student Affairs and Services.

Chapter 4
GROUNDS OF DISCIPLINARY ACTIONS AND SANCTIONS

Section 1. No student shall be meted out any form of disciplinary actions except for causes as provided by the provisions of this part and by appropriate authorities after due process.

Section 2. Suspension as a formative intervention can range from a minimum of three (3) days to a maximum of one year. The following rules shall govern the formative intervention of suspension.

a. During the period of suspension, the student shall be deemed divested of all privileges as a student of the institution and shall not be allowed to enter the premises of any campus or use any facilities of the college. The student ID shall be confiscated and deposited with the Director of Student Affairs and Services up on the execution of the order. Discipline officers or their equivalent shall be properly notified of students serving the formative intervention of suspension.
b. After serving the period of suspension, the student shall be issued an order lifting the

suspension and subsequently clearing him/her of the sanction thereof. Once cleared, all privileges as a student are restored and ID is returned to him/her.

c. Any student whose suspension covers the final examination period will have to miss the final examination. In all cases of suspension, a written promise of future exemplary conduct by the student countersigned by his/her parents or guardian is required as a condition for readmission and shall be filed in his/her folio.

Section 3. The penalty of dropping shall consist of either dropping from the college or dropping from all subjects. Dropping from the college shall consist of the total ban of the student from enrolling in any course offered by the institution. Dropping from the subject shall consist of dropping him/her from the subjects without prejudice to his/her enrolling in the same subjects but in another semester/year as the case may be. The Registrar shall be duly notified of this sanction imposed upon the student.

Section 4. Expulsion shall carry with it the total ban of the student from enrolling in any course offered by an institution in the country within a period of one year from the date the order became final and binding. The Registrar shall be correspondingly notified of the students who have been meted with this sanction.

Section 5. Aggravating, mitigating and alternative circumstances of any kind as provided by law in the commission of the acts shall be considered in the imposition of the formative intervention.

Section 6. The nature and extent of participation of the

respondent in the offense charged against the student shall be considered on the imposition of the formative intervention.

Section 7. The formative intervention of warning, reprimand, and apology shall be executed strictly in accordance with the decision of the case.

Section 8. Minor Offenses. The following shall be grounds for disciplinary sanctions of minor offenses:

a. Inappropriate/non-wearing, lending, borrowing of Identification (ID) and library cards. The college adheres to the NO ID/NO UNIFORM, NO ENTRY policy. (Refer to Annex for the proper uniform and for the College Dress Code). Students can temporarily use their COR and Temporary ID issued by Registrar if they lost their ID or if it was broken. A notarized affidavit of loss will be presented to the Office of the Student Affairs and Services and such office will issue a recommendatory notice to the IT Department for the procurement of the new ID.
b. Improper/inappropriate use of school uniform/dress code
c. Disrupting academic functions (class, organization activities, academic activities, co-curricular activities)
d. Unauthorized use of school facilities, equipment, properties and the like
e. Use of cellular phones or any similar communication/electronic gadget during class hours
f. Smoking within the school premises
g. Littering
h. Loitering

i. Other minor offenses

Section 9 Formative Intervention for Minor Offenses:

a. First Offense – verbal reprimand/warning with record at the Student Discipline Office and Office of the Student Affairs and Services (non-issuance of good moral certificate for three months)
b. Second Offense - written reprimand and promissory note with record at the Student Discipline Office (non-issuance of good moral certificate for one semester)

Section 10. Major Offenses. The following shall be grounds for disciplinary sanctions of major offenses;

a. Dishonesty such as the following or any similar act;
    1. Stealing or an attempt thereof;
    2. Cheating in examination and/or quizzes or any similar acts such as the following:
b. Deliberately looking at neighbor's examination papers;
c. Copying from or allowing another to copy from one's examination papers;
d. Having somebody else take the examination for another (in which case both shall be liable);
e. Communicating verbally and non- verbally without permission during examinations;
f. Passing as one's work any assigned report, term paper, case study/analysis, reaction paper and the like, when copied from another;
g. Using or bringing out of cellular phones or

with married individuals, with members of the academic and non-academic staff)

3.) Acts of disorder, lewdness or obscene conduct and acts of intimacy within the school premises and during on and off-campus academic and co-curricular activities
4.) Impersonating or giving of fictitious names with malicious intent
5.) Intentional making of false statement of any material fact or practicing or attempting to practice any deception or fraud for such purposes as admission or registration in or graduation from the College.
6.) Acts of bribery to corrupt the standards of the College.
7.) Harassment (verbal/physical) which tends to put any member of the students, faculty, administration or non-teaching staff or any person of authority in ridicule or contempt. (Violence Against Women and Children Law)
8.) Sexual harassment (physical/verbal) committed by students, faculty, administration or non- teaching staff, faculty or any per son with authority, influence or moral ascendency as

included in Republic Act 7877 (Anti-Sexual Harassment Act of 1995)

9.) Any acts that transgress gender equality and sensitivity and other similar forms of discrimination towards the opposite sex. (Gender Sensitivity Act)

10.) Unauthorized solicitation of funds or promoting the sale of tickets in behalf of private enterprises that are not intended for charitable or public welfare purposes

11.) Forging, tampering, alteration or misuse of official academic records or documents of any kind

12.) Gambling of any form within the premises or during off-campus academic or co-curricular activities

13.) Willful refusal to pay just debts

14.) Insubordination such as:

A.) Willful disobedience to any just order of any person in authority within the College premises including related school activities held off-campus.

B.) Any other similar acts

i. Conduct prejudicial to the best interest of the College such as:

1. Vandalism or destruction of

public/college property

2. Acts that bring the name of the institution or any of its member into disrepute such as public malicious imputation of a crime or a vice or defect, real or imaginary, or an act, omission, condition, status or circumstance, which tends to cause dishonor, discredit or contempt to the name of the institution or any negligent act that leads to the above;
3. Any other similar acts

j. Abuse of authority, rights and privileges such as:
   1. Appropriating college properties for personal use;
   2. Committing indecent and unlawful acts in the exercise of his rights or privileges;
   3. Unauthorized posting of notices in any form;
   4. Unauthorized publication of printed and broadcast materials and distribution thereof to members of the academic community
   5. Unauthorized extension of time and use of facilities in con ducting student activities
   6. Failure to comply with the summons/sanctions imposed under the College Student Manual
   7. Hazing defined as an act with which endangers the mental or physical health of a student for the purpose of initiation, admission in, affiliation

with or as conditioned for continues membership in a group or organization. (Sanctions as determined by the College Disciplinary Board based on Anti-Hazing Law);

8. And other similar acts

Section 11. Formative Intervention for Major Offense:

a. First Offense – minimum of seven (7) school days suspension to one semester suspension
b. Second Offense – minimum of twenty-one (21) school days' suspension to one (1) year suspension.
c. Third Offense – expulsion/dismissal from the College

Section 12. Inclusion of the following based on the final recommendation of the College Disciplinary Board:

a. Suspension includes number of hours of in-house service to the College
b. Loss of privileges to attend classes including exams or other academic and extra-curricular activities
c. Official College Records will be on-hold such as transcript of records, certification of grades and the like.
d. Non-issuance of certification of good moral character;
    1. First Offense – non-issuance for three months
    2. Second Offense – non-issuance for one semester
    3. Third Offense – non-issuance of good moral character

subsequent memo or report with a finding that the alleged misconduct, offense, infraction or violation had probably been committed by respondent, the Director of the Student Affairs and Services shall do any of the following:

a.) If the misconduct, offense, infraction or violation is sanctionable by WARNING or REPRIMAND, the Office of the Student Affairs and Services shall be the Investigating Officer and shall proceed with the conduct of the administrative disciplinary investigation, starting from issuance of the Notice of Investigation addressed to complainant and respondent, copy furnished the offices of the

President and VP Academic Affairs.

b.) If the misconduct, offense, infraction or violation is sanctionable by SUSPENSION, EXCLUSION or EXPULSION, the Director of the Office of the Student Affairs and Services shall refer the matter by memo to the Office of the President, through the VP Academic Affairs, requesting that the BOARD OF DISCIPLINE be convened to conduct the investigation, indicating therein the name of complainant and respondent, the general description of the alleged misconduct, offense, infraction or violation to be

investigated, and attaching thereto the available evidence (reports, affidavits and/or written statements of witnesses, and other papers, documents or things, if any).

B. Preventive Suspension Pending Investigation

Section 1. At the start or at any stage of the investigation process before the final decision, the Director of the Student Affairs and Services, motu proprio or upon recommendation of the Vice President for Academic Affairs, the College President or the Board of Discipline, may place a student to be investigated or already under investigation under preventive suspension for a period not prohibited by the Commission on Higher Education rules and regulations.

Section 2. The preventive suspension period served to a student shall be deducted from the penalty of suspension that may later be imposed on the student, if any. However, in the event that a student is found innocent, the period of preventive suspension shall not be counted against the students and he shall be allowed to take the missed examination missed and submit the missed subject requirements, if any.

C. Notice of Investigation; Answering of Respondent

Section 1. The Director of the Office of the Student Affairs and Services or the Board of Discipline shall issue a Notice of Investigation to respondent student stating therein the following:

a. the alleged misconduct, offense, infraction or violation in general terms against him/her, furnishing him/her a copy of the complaint and the attachments thereto, if any;
b. the law, policy, rule or regulation being violated with corresponding sanction;
c. the date, time and place where the initial conference/hearing will be conducted;
d. the requirement for him/her to submit his/her written answer/ explanation and supporting documents, if any, and to furnish a copy thereof to the other party (complainant) through the Investigator within five (5) working days from receipt of the said notice;
e. the reminder of his/her rights to be represented by counsel if he/ she so desires, to examine the evidence against him/her, and to present evidence on his/her own behalf; and
f. the notice that if respondent student refuses or fails to submit his/her answer/explanation, such refusal shall be deemed a waiver to present evidence on his/her own behalf, and the investigation will proceed and will be decided based on the evidence adduced during the investigation.

D. Notification of Complainant for Parents or Guardians

Section 1. The Board of Discipline thru the Office of the Student Affairs and Services shall furnish a copy of the Notice of Investigation to complainant. If it is a student who

is complaining without assistance from his/her parent/s or guardian, the Board of Discipline shall notify his/her parent/s or guardian accordingly at their last known address per school records. If the parent/s or guardian cannot be contacted or fail to come during the investigation despite the notice, the investigation shall proceed accordingly.

E. Initial Conference/Hearing

Section 1. During the initial conference/hearing, the Office of the Student Affairs and Services shall determine whether there is a prima facie case to proceed further with the investigation or dismiss the complaint or terminate the proceedings. It is well to note that the veracity or truthfulness of the allegations of complainant and respondent will only be determined by the Board of Discipline when he/she renders his/her decision in the resolution. Moreover, the issues will be clarified, stipulations and admissions will be made, or the parties will explore the possibility of settling amicably the personal claims of the complainant, if any, without prejudice to the respondent being investigated further to determine whether or not respondent is liable for having violated any of the College policies, rules or regulations, and the appropriate formative intervention thereto, if any.

Section 2. In the event that before or during the scheduled initial conference/hearing respondent admits in writing the allegations against him/her, or the facts are clear to the Board of Discipline, the case may be deemed submitted for decision based on the complaint and the answer unless the Board of Discipline will require submission of position papers.

F. Summary Judgement

Section 1. If on the basis of the documents submitted (such as the letter, report, answer, supporting papers and other evidence), the Board of Discipline finds that there is already sufficient basis to render judgment (as when the facts and issues are already clear to the Board of Discipline or when there is admission of guilt), it may immediately render summary judgment during the initial conference, or it may consider the case submitted for decision, and the parties shall be informed accordingly of the resulting written resolution.

G. Judgement Based on Position Papers

Section 1. Whenever summary judgment is not appropriate, the Board of Discipline shall direct the parties to the case to simultaneously submit their position papers with written statements or affidavits of witnesses and other supporting evidence within three (3) working days from date of the initial conference/hearing where the directive is given, or if given later after from notice of the order, after which the case shall be deemed submitted for decision. If one party refuses or fails to submit his/her position paper and additional supporting evidence, the same shall be deemed a waiver on the part of that party to present further evidence, and the case shall be decided based on whatever documents or evidence found in the record.

Section 2. In case the written statements of witnesses and parties are not notarized, the individuals concerned shall be required to appear before the Board of Discipline to affirm or swear on the veracity of their written allegations.

H. Judgement After Further Hearing

Section 1. Where the Board of Discipline finds that there are complicated factual issues involved which cannot be resolved through position papers, or which need further

clarification for better understanding, or there are other witnesses who may be called or presented to testify to shed light on certain factual issues, it shall conduct further hearing. The Board of Discipline, if necessary, shall direct the parties and other persons to appear before it to answer classificatory questions. Any employee or student who refuses to attend and testify in the hearing shall be reported to the Office of the Vice President for Administration or HRMD or Office of the Student Affairs and Services for appropriate action. For this purpose, the Board of Discipline will then proceed to ask questions first to complainant and his/her witnesses, and second to respondent and his/her witnesses. After a witness has been asked by the Board of Discipline, any of the contending parties or their counsel, if represented, may examine further the witness by submitting written questions to the Board of Discipline, who will then read the questions to the witness for his answers. However, the Investigator may allow the counsel to directly ask the questions to the witness. Minutes summarizing the proceedings shall be in writing and signed by the Board of Discipline, the parties, and their counsels, if any.

I. Resolution of the Case, Finality of Resolution/Decision, Motion for Reconsideration, and Appeal.

Section 1. The Board of Discipline shall decide the case within fifteen (15) working days from the last hearing or on the date stated in its Order stating that the case is deemed submitted for decision (for instances when position papers are required to be submitted before judgment). The resolution should be based on the evidence adduced during the investigation and the applicable law, policies, rules or regulations. The resolution must contain these essential parts:

1. statement of the case;

2. finding of facts, issues;
3. discussions of the issues, applicable laws, policies, rules and/or regulation; and
4. dispositive portion with recommended formative intervention to be imposed or appropriate action to be taken. The parties shall be furnished a copy each of the resolution.

Section 2. The Board of Discipline may ask for extension of the period to decide on a valid ground. The Office of the College President may extend the period for the Board of Discipline to decide the case if it will find the ground relied upon by the Investigator to be valid and reasonable.

Section 3. If respondent is found liable, the possible formative intervention that may be recommended may either be Warning, Reprimand, Suspension, Exclusion or Expulsion. However, if a case involves theft, non-liquidation of funds, actual damages resulting from respondent's act or negligence, or analogous cases, the resolution or decision may include the directive to return the stolen object or pay its value, or pay a specific sum of money.

Section 4. The resolution of the Board of Discipline is final unless appealed to the Office of the President within five (5) working days from receipt of the decision. A motion for reconsideration shall be considered an appeal. The appeal or motion for reconsideration, filed by any of the parties with the Board of Discipline, with a copy thereof furnished by the movant/appellant to the other party through the Board of Discipline, shall state the reason or reasons why the resolution of the Board of Discipline should be reversed, modified, or set aside, and a new one is to be rendered by the President.

Section 5. The other party (appellee) shall have three (3)

working days from receipt of the motion or appeal within which to file his/her Comment or Opposition to the said motion or appeal. After the lapse of the period to submit the Comment or Opposition, with or without the opposition, the Office of the College President shall review the records of the case and render decision based on the evidence adduced during the investigation and the applicable laws, policies, rules and/or regulations, either affirming, reversing, modifying, or setting aside the resolution of the Board of Discipline and render a new one, or directing whatever the College President may deem necessary and proper.

Section 6. The decision of the Office of the College President is immediately final and executory upon issuance thereof, unless otherwise stated therein.

J. Action of the President on Unappealed Resolution

Section 1. If the resolution of the Board of Discipline is not appealed within the reglementary period, said resolution shall be immediately endorsed to the Office of the College President for its final determination whether or not to approve its execution or for whatever action it may deem necessary and proper (such as to order a reinvestigation, or to review and render a new decision modifying or amending the previous one). The action of the Office of the College President shall constitute the final decision.

K. Furnishing Copy of Resolution or Decision

Section 1. Complainant, respondent and the student's/students' parent/s or guardian/s shall each be furnished a copy of the resolution or decision through the Office of the Student Affairs and Services, by personal service or by special mail delivery through private courier (such as LBC, JRS or DHL), or by registered mail at their

last known addresses per school records.

L. Student Misconduct Record (SMR)

Section 1. After finality of the resolution/decision, the Director of the Office of the Student Affairs and Services prepares the Student Misconduct Record (SMR) in four (4) copies describing the nature of the infraction and quoting the dispositive portion of the final resolution/decision.

Section 2. Copies of the SMR shall be distributed as follows:

1. First copy - Respondent student
2. Second copy - Dean or Program Head of respondent student
3. Third copy - Department Guidance Office
4. Fourth copy – Office of the Student Affairs and Services

M. Court Action Against Respondent Student

Section 1. The administrative investigation or the formative intervention meted shall not prejudice the right of the College, the complainant or the victim to initiate court action against the respondent student if warranted and opted by the former.

ARTICLE VI
THE OFFICE OF TREASURER

Section 1. The Office of College Accounting and Finance is headed by the Treasurer who takes care of the financial operations of the school.

Section 2. All financial transactions shall be made with the Accounting and Finance Office ONLY.

ARTICLE VII
THE OFFICE OF THE COLLEGE REGISTRAR

Section 1. The Office of the College Registrar plans, organizes, and coordinates activities associated to the registration, transfer, release and graduation of students, maintenance and safekeeping of records, consolidation of class and examination schedules in coordination with the Department Head or Deans, communication with the Commission on Higher Education (CHED), Technical Education and Skills Development Authority (TESDA) pertaining to academic records of students and observance of policies and guidelines.

where field trip is required and a particular syllabus of the subject which needs a field trip to enhance the subject matter with or allotted grade as part of the grading system can be found in the Student's Handbook approved by the Board of Trustees and be presented every General Orientation among freshman students.

3. Copy of the approval letter offices/companies/plants where the tour will be conducted.
4. Fill up the Activity Permit Form to hold Educational Field Trips from the Tour Coordinator.
5. Itinerary of the Tour (approved by the Dean of the requesting party, noted by the VPAA and attested by the President).
6. Attendance Sheet/List of students with their signatures who are joining the trip Waiver/Parent's consent.
7. Budget/Funding Resources
8. Copy of Insurance Policy with the list of students concerned stakeholders.
9. Medical clearance of students.
10. List of the teachers/chaperones (I faculty/staff for every 50 students)

Section 2. After the Educational Visit/Tour/Trip

1. Duly signed and accomplished Attendance Sheet including the attendance before leaving the campus, during the educational tour, and arrival at the campus.
2. Learning journal of students highlighting the essential lessons and learning they have.
3. Evaluation result form.

ARTICLE IX
ON THE JOB
TRAINING/PRACTICUM/INTERNSHIP
POLICIES AND GUIDELINE

Section 1. During the practicum/OJT, the students are assigned to participating establishments where they are given work experience in the various as1p0ec1ts. Student's enrolled need to be screened first by the Practicum/OJT Coordinator. The screening schedule will be posted in the enrolment of every department.

A. Objectives

Section 1. Exposure to the different work situation is designed to provide students an opportunity to experience and observe the application of theories they have learned in the classroom in an actual workplace. The training will enable him/her to develop the necessary conceptual, technical know-how and the human aspects necessary to start work.

1. General Objectives

   Section 1. To provide students the opportunity to acquire practical knowledge, skills, and desirable attitudes in the operational aspects of the industry.

   a. To make them internationally competitive for employment here and abroad.
   b. To develop and enhance the Filipino work ethics, competencies and discipline.

2. Specific Objectives

   Section 1. At the end of the practicum training program, the student should be able to:

1. Contact information, such as, name, addresses, telephone numbers, email addresses and other contact details
2. Personal information, such as date and place of birth, nationality, immigration status, religion, civil status, student ID, government-issued IDs, web information, recommendations and assessment forms from previous schools, etc.
3. Family background, including information on parents, guardians, siblings, related TPC alumnae, etc.
4. Photographic and biometric data, such as, photos, CCTV videos, fingerprints, handwriting and signature specimens
5. Student's school works, including data gathered using third party online learning tools, such as, Schoology and other related.
6. Health records, psychological evaluation results, disciplinary records, and physical fitness information
7. Student Cumulative Guidance Folder, which includes interviews, entrance exam results, guidance assessments, special needs, exclusions/behavioral information, etc.
8. Permanent Student Academic Records, including transcripts and the academic history of the student in TPC.
9. Student extra-curricular activities, résumés, job interview forms
10. Financial and billing information

Use of Information

The collected personal data is used solely for the following purposes:

1. Processing of admission application and student selection (and to confirm the identity of prospective students and their parents)
2. Verifying authenticity of student records and documents
3. Processing of scholarship applications and its on-going requirements
4. Processing of enrollment and registration
5. Supporting student learning, and validating students' program of study based on curriculum requirements, and other activities and experiences forming part of the student's formation and education.
6. Supporting the student's well-being and providing medical services and guidance counselling
7. Monitoring and reporting on student progress; processing of evaluations, exam results, and grades
8. Monitoring and ensuring the safety of all students within the TPC campus
9. Processing and generating statements of accounts
10. Processing of application for graduation
11. Evaluation for board examinations
12. Documentation of students' data
13. For accreditation, professional development of teachers and staff, and research, e.g., evaluation studies by the research desk, action research by teachers, etc.
14. Posting or displaying of academic and non-academic achievements within the TPC's premises and/or its official website and social media accounts and/or school publication

15. Marketing and promoting TPC, its students, employees, and other academic and non-academic student and/or school activities inside and outside the campus
16. Providing Library services, running an outreach program, family council purposes, job postings, practicums, internships, employment

Information Sharing

Personal data under the custody of TPC shall be disclosed only to authorized recipients of such data. Otherwise, we will share your personal data with third parties, other than your parents and/or guardian on record for minors, only with your consent, or when required or permitted by our policies and applicable law, such as with:

1. Regulatory authorities, courts, and government agencies, e.g., Commission on Higher Education, etc.
2. Service Providers who perform services for us and help us support your learning, monitor and report on your progress, manage the operations of our school, and assess how well TPC is doing.
3. Business partners and other academic linkages who provide internships and job opportunities to our graduates.

Data Transfer

Where TPC consider it necessary or appropriate, for the purposes of data storage, processing, providing any service or product on our behalf to you, or implementing an academic linkage program, we may transfer your personal data to third parties within or outside of the Philippines, under conditions of confidentiality and similar levels of security safeguards.

Security

1. We continue to implement organizational, administrative, technical, and physical security measures to safeguard your personal data.
2. Only authorized personnel have access to your personal data, the exchange of which (mainly within campus) is facilitated through internal shared servers, email, and paper files.
3. Should third parties need access to your personal data, we require some form of data sharing agreement with them, in compliance with the DPA and the DPA-IRR.
4. Your paper and digital files are securely stored: employing physical security to safeguard the paper files and technical security to protect the digital files.

Retention of Information

We keep your paper and digital files only for as long as necessary.

1. The Permanent Student Academic Records are kept by the College Registrar Records Office for 50 years after last graduation from TPC.
2. The College Registrar Admissions files are kept for five years.
3. Application forms and documents of unsuccessful applicants are kept by the Admissions Office – five years for college records.
4. Scholarship application forms and supporting documentation are kept by the Scholarship Office or Office of Student Affairs and Services for four years, or until the scholar graduates.
5. The Student Cumulative Guidance Folders are kept by the Registrar's Office for five years after graduation.
6. Student school works are kept for five years, but, in

a few cases, selected student works may be retained for 10 years as exemplars.

7. Student disciplinary records are stored by the Office of Student Affairs and Services, for five years after graduation.
8. The class records are kept for one year after graduation.
9. Non-academic records, e.g., service records for college scholars, extra-curricular activities, emergency contact forms, etc. are kept for five years.
10. Financial and billing information are kept by the Scholarship Office for 10 years.
11. The Clinic retains health records for five years after graduation.
12. CCTV cameras are the responsibility of Facilities; some cameras have memory for a month of CCTV videos, and older ones for less. The cameras run continuously on a rolling basis, where older videos are overwritten as the memory fills up.
13. When your personal data is no longer needed, we take reasonable steps to securely destroy such information or permanently de-identify it. Paper files are securely shredded; and electronic information is deleted and Secure Erase applied so that this is no longer recoverable nor reproducible.

Your rights

1. You have the right to be informed, object to processing, access and rectify, suspend or withdraw your personal data, including, any such information held by third parties, with whom TPC have a data sharing agreement; and be indemnified in case of damages pursuant to the provisions of the DPA and the DPA-IRR.

2. If you want to exercise any of your rights, or if you have any questions about how we process your personal data, please contact the Office of the Registrar or the Office of the Student Affairs and Services, through the following channels:

   talibonpolytechniccollegetalib@gmail.com
   Call +639536729213
   The Office of the Student Affairs and Services
   San Isidro, Talibon, Bohol, Philippines

3. If you have a concern or complaint about the way we are collecting or using your personal data, you should raise your concern with us in the first instance or directly to the National Privacy Commission.

3. “mechanisms to exercise due diligence prior, during and after the activities for safety and welfare of the students and HEIs’ personnel; and” (Section 5.3, Article III, CMO 63, s. 2017)

4. “mechanisms for the implementation of parallel activities to those students who will be participating in the activity.” (Section 5.4, Article III, CMO 63, s. 2017)

5. To identify, differentiate and exclude the conduct of International Educational Tours or Field Trips and Internship/OJT/Practicum programs form this policy. Both are governed by separate CHED Memorandum and Guidelines.

ARTICLE IV
GENERAL RULES

Section 1. The conduct of all off-campus activities must be designed, determined and approved in accordance with the curriculum requirement and its relevance therein.

Section 2. Compliance of all requirements as stipulated in CMO 63, s.2017 is a must for every student-participant of any Local Off-Campus activity. All requirements shall be submitted to the Office of the Student Affairs and Services two (2) weeks or 14 days before the conduct of the activity. The Activity Permit shall only be issued upon compliance of “before the activity” needed documents. The rest of the requirements shall be submitted immediately after the activity for compliance with CHED. “Failure to do so shall be a cause for imposition of the sanctions as provided in the CMO without prejudice to other liabilities under

alternative activities shall provide "similar acquisition of knowledge and/or competencies to achieve the learning objectives for students… and will not be made as substitute of a major examination for the purpose of compelling students to participate in the said activities." (Section 11.1.h, Article VII, CMO 63, s. 2017)

Section 6. Student and learners with special needs or Persons with Disabilities (PWDs) shall be given due recognition and attention. (Section 11.1.i, Article VII, CMO 63, s. 2017)

Section 7. "Conduct off-campus activities that shall not unduly benefit or accommodate any of the establishments owned by HEI or CHED employees and officials or by an owner who is a relative within the third civil degree of consanguinity or affinity." (Section 11.1.j, Article VII, CMO 63, s. 2017)

Section 8. Proper coordination with the Local Government Units, Non-Governmental Organizations and other venues must be complied with appropriate security clearance before the date of the trip for safety and security if available and needed.

Section 9. Swimming and Unspecified Trips are strictly prohibited.

Section 10. Alcoholic Drinks shall not be tolerated at all times during the conduct of local off-campus activities. Violation of this provision shall be subjected to disciplinary action.

2. Destination: Itinerary of the trip – the Itinerary of the local off-campus activity must be clearly stated. Side trips are prohibited and strictly discouraged.

3. Students' Handbook/College Policy – The guidelines and requirements for the conduct of local off-campus activities shall be included in the Students' Handbook/College Policy.

4. Student Documents
   a. Parental/Guardian's Consent – This document shall be duly signed by parent/guardian. Please be reminded that only students with signed Parental/Guardian's consent are allowed to join the activity. This is for strict compliance.
   b. Medical Clearance – This document shall be obtained from the College, Municipal Health Unit or any government Physician.

5. Certificate of Appointment for Personnel-in-Charge (PIC): As stated in Article IV, Section 6 of this policy, the Personnel-in-charge shall be appointed for specific local off-campus activities with appropriate documents and training.

6. Duly approved Breakdown of Fund/Fees: "The fees to be collected from the students must be duly approved and disseminated to concerned stakeholders… there should be a breakdown of fund sources and other resources properly secured and accounted for." (Section 11.2, a.1, Article VII, CMO 63, s. 2017)

APPENDIX B: FREQUENTLY ASKED QUESTIONS (Q&A DATASET)

The following dataset contains possible questions asked regarding the Web-Based Student Clearance System along with their corresponding answers.

Q1: What is the Web-Based Student Clearance System?

A: It is an automated platform designed to help graduating, transferring, and LOA students at TPC securely process their clearance requirements online without needing physical signatures from all offices.

Q2: Who is required to get a clearance at TPC?

A: All graduating students, transferring students, and students taking a leave of absence (LOA) must secure a clearance before they can request their Transcript of Records (TOR) or Honorable Dismissal.

Q3: How long does the clearance process take?

A: Once submitted, it typically takes 3 to 5 working days for all departments to review and approve the request, provided the student has no pending accountabilities.

Q4: How do I know if I have a pending accountability?

A: You can log into your Student Portal and check the 'Clearance Status' dashboard. Pending accountabilities are flagged in red with remarks from the respective office.

Q5: Can I process my clearance if I have a remaining tuition balance?

A: No. All financial obligations must be settled at the Cashier's Office before your clearance can progress.

Q6: What happens if an office rejects my clearance request?

A: If rejected, you must read the remarks provided, physically go to the specific office to resolve the issue, and then click the 'Re-evaluate' button on the portal.

Q7: Can I request my TOR while my clearance is pending?

A: No. The Registrar will only release your Transcript of Records (TOR) or Honorable Dismissal after your final clearance is fully completed.

Q8: How do I start my clearance application?

A: Log into the TPC Clearance Portal, click 'Apply for Clearance', select your purpose (Graduation, Transfer, LOA), and submit.

Q9: Do I need to print a physical clearance form to go office-to-office?

A: No. The system uses a push-model where your request is digitally routed to the dashboards of all required signatory offices.

Q10: How do I download my clearance certificate?

A: Once all departments, including the College President, have approved, the overall status will change to 'Completed'. You can then click 'Download Certificate' to generate a printable PDF.

Q11: How is the downloaded certificate verified?

A: The digitally generated clearance certificate contains a unique reference number and a QR code that administrators can scan to verify its authenticity.

Q12: When is the deadline to return borrowed library materials?

A: All borrowed library materials must be returned on or before the last day of final examinations.

Q13: What happens if I have unreturned books?

A: The Librarian will reject your clearance on the system and add a remark. You must return the books before your clearance is approved.

Q14: What is the penalty for a lost library book?

A: Lost books must be replaced with the exact title/edition or paid for at current market value plus a 20% processing fee.

Q15: How do I clear a library fine?

A: Library fines must be paid at the Cashier's Office or directly at the Library, depending on the campus policy, before the Librarian approves your digital clearance.

Q16: Will the library approve my clearance if I just forgot my book at home?

A: No. The book must be physically returned to the library before they click 'Approve' on your clearance request.

Q17: What does the Office of Student Affairs and Services (OSAS) check?

A: OSAS verifies if a student has any pending disciplinary cases or unserved sanctions.

Q18: Do I need to surrender my ID to graduate?

A: Yes. Graduating students must surrender their official TPC Student ID Card to OSAS upon final exit.

Q19: Will an ongoing disciplinary case stop my clearance?

A: Yes. A student with an ongoing disciplinary case will have their clearance rejected by OSAS until all sanctions, such as community service, are fully completed.

Q20: Why does the SSG need to sign my clearance?

A: The SSG checks if you have any unremitted funds, unreturned organization properties, or pending liquidation reports, especially if you were an officer.

Q21: I am an SSG Officer. What are my specific clearance requirements?

A: Officers must submit all financial liquidation reports and turnover documents to the SSG Adviser before their clearance is approved.

Q22: What happens if I didn't pay the SSG contribution fee?

A: If you have unpaid mandatory student organization fees, the SSG will reject your clearance until the balance is settled.

Q23: What does the Equipment and Facilities office check?

A: They verify if you have borrowed any laboratory equipment, sports gear, or used campus facilities and ensure everything was returned in good condition.

Q24: What if I broke a beaker in the chemistry lab?

A: The Equipment and Facilities office will reject your clearance. You must replace the broken item or pay the equivalent fee to be cleared.

Q25: Do I need clearance from PE/Sports?

A: Yes, it is part of Student Services. They check for unreturned sports equipment like basketballs or jerseys.

Q26: What does the Registrar verify in the clearance system?

A: The Registrar verifies that all your grades have been submitted and that you have completed the required number of units for your specific Course.

Q27: What is the role of the Program Head in my clearance?

A: The Program Head must certify that you have completed your thesis/capstone project, submitted all hardbound copies, and fulfilled all academic obligations for your specific program.

Q28: If my professor hasn't submitted my grades, will my clearance be delayed?

A: Yes. The Registrar cannot approve your clearance if there are missing grades in your academic record.

Q29: Who are the Student Services signatories?

A: Student Services include the Guidance Office, Medical-Dental Clinic, Library, Security and Safety Office, Equipment and Facilities, SSG, Registrar, PE/Sports, and Canteen.

Q30: Who are the Administration signatories?

A: Administration includes the Program Head, OSAS, VP for Academic Affairs, VP for Administration, and the Office of the College President.

Q31: Can the College President approve my clearance first?

A: No. The system's routing logic requires all Student Services and other Administration offices to approve first. The College President is the final approver.

Q32: Who is the final approver in the Web-Based Clearance System?

A: The Office of the College President is designated as the sole final approver (is_final_approver flag) in the system.

Q33: Does the system automatically route my clearance to the next office?

A: Yes, once you submit, the system simultaneously notifies all required offices so they can process your request in parallel, except for the final approver.

Q34: Can I access the clearance portal on my phone?

A: Yes, the Web-Based Student Clearance System features a responsive frontend design that is accessible on both desktop and mobile devices.

Q35: What happens if I forget my portal password?

A: You can use the 'Forgot Password' feature on the login screen or request an IT Administrator to reset your password.

Q36: How are clearance approvals stored in the database?

A: The system creates a 'Clearance Request' record for the student, and generates multiple child 'Clearance Approval' records for each specific department to track individual statuses.

Q37: What tech stack was used for the clearance system?

A: The system follows a standard Client-Server MVC architecture using HTML5/CSS3/JavaScript for the frontend and a robust backend framework connected to a relational database like MySQL.

Q38: Can an administrator add a new department to the clearance route?

A: Yes. Administrators can navigate to the 'Manage Departments' tab to add new signatory offices, update names, or modify the sort order.

Q39: Is my data secure in the clearance portal?

A: Yes. Passwords are encrypted using bcrypt, data is transmitted via HTTPS/SSL, and Role-Based Access Control (RBAC) ensures students cannot access staff dashboards.

Q40: How does an office staff member approve a request?

A: Office staff log into their dashboard, click on a pending request, verify internal records, and click the 'Approve' button, which locks their department's record.

Q41: I paid my library fine but my dashboard still shows red. What do I do?

A: You need to wait for the Librarian to manually update your status on their dashboard, or you can click the 'Re-evaluate' button to notify them.

Q42: Can I cancel my clearance request?

A: Yes, students can cancel a pending clearance request from their dashboard if they made a mistake, provided it hasn't been fully completed yet.

Q43: What if an office staff member is absent?

A: The system allows Administrators to temporarily assign proxy access to another staff member so that clearance approvals are not delayed.

Q44: Does the system handle tuition fee payments?

A: No. The system does not handle direct financial transactions. It only flags if you have an outstanding balance that must be settled physically or via a separate payment gateway.

Q45: I am a transferring student. Do I need the Program Head's signature?

A: Yes, transferring students must still clear academic obligations with their Program Head before leaving the institution.

Q46: My dashboard shows 'Pending' but all offices are green except one. What does it mean?

A: It means you are waiting for that final office (usually the College President) to provide their ultimate sign-off before your overall status changes to Completed.

Q47: What if I lost my physical ID and need to surrender it to OSAS?

A: You must submit a notarized Affidavit of Loss to OSAS in lieu of the physical ID card to get your clearance approved.

Q48: Why did my clearance get rejected by the Medical-Dental Clinic?

A: Rejections from the clinic usually happen if you failed to submit your mandatory exit physical examination or if you have unsettled medical fees.

Q49: Can I use the clearance portal if I am an alumni?

A: Alumni who have already completed their final clearance do not need to use the portal again, but administrators can view past alumni records in the database archives.

Q50: How will I know if my clearance is fully completed?

A: You will receive a real-time notification on your portal dashboard, and the overall status will change to 'Completed', unlocking the download button for your certificate.

APPENDIX C: SYSTEM USAGE & SCENARIO DATASET

This dataset provides step-by-step scenarios demonstrating exactly how to use the Web-Based Student Clearance System across different user roles.

SCENARIO 1: A Student Applying for Graduation Clearance

Goal: Initiate a clearance request. 1. **Login:** The student navigates to `portal.tpc.edu/clearance` and logs in using their Student ID and password. 2. **Dashboard:** The student is routed to the Student Dashboard. They click the blue **"New Clearance Request"** button. 3. **Select Type:** A modal appears. The student selects **"Graduation"** from the dropdown and verifies their program (e.g., BS Computer Science). 4. **Submit:** The student clicks **"Submit Request"**. 5. **Tracking:** The dashboard updates to show a progress tracker. It displays 14 distinct boxes representing each signatory office (Library, SSG, OSAS, etc.), all currently marked with a yellow "Pending" status.

SCENARIO 2: The Librarian Processing a Request (Rejection)

Goal: Identify a student accountability and reject the clearance. 1. **Notification:** The Librarian logs into the Office Staff portal and sees a notification badge on their dashboard. 2. **View Pending:** They click the **"Pending Approvals"** tab. They see the new request from the student in Scenario 1. 3. **Verification:** The Librarian checks their internal physical records or Library Management System and finds the student has an unreturned book ("Introduction to Algorithms"). 4. **Action:** The Librarian clicks the **"Evaluate"** button next to the student's name. 5. **Rejection:** They select **"Reject"** from the dropdown. A mandatory remarks text box appears. The Librarian types: *"Unreturned book: Introduction to Algorithms. Please return to the 2nd floor library."* 6. **Save:** They click **"Submit Evaluation"**. The student's status on the Librarian's dashboard changes to "Rejected" (red).

SCENARIO 3: Student Resolving a Rejection

Goal: Fix a rejected status and get approved. 1. **Notification:** The student receives an email/portal notification stating their clearance was rejected by the Library. 2. **View Remarks:** The student logs into the portal, sees the red Library box, and reads the remark about the unreturned book. 3. **Physical Action:** The student goes to the physical library and returns the book to the Librarian. 4. **Re-Evaluation:** The student logs back into the portal and clicks the **"Request Re-evaluation"** button under the Library section. 5. **Librarian Approval:** The Librarian sees the re-evaluation request, confirms the book is returned, clicks "Evaluate", selects **"Approve"**, and submits. The student's portal now shows the Library box as "Approved" (green).

SCENARIO 4: Admin Adding a New Signatory Office

Goal: Update the clearance routing sequence. 1. **Login:** The IT Administrator logs into the Admin Portal. 2. **Settings:** They navigate to **"System Configuration"** -> **"Manage Departments"**. 3. **Add Department:** They click **"Add New Signatory"**. 4. **Details:** They enter the Department Name: *"Alumni Office"*. 5. **Sort Order:** They assign it a Sort Order of 13 (right before the College President, who is 14). 6. **Save:** They click **"Save Department"**. The Alumni Office is instantly added to the routing logic for all *future* clearance requests.

SCENARIO 5: Finalizing the Clearance

Goal: The College President gives final approval, allowing the student to download their certificate. 1. **Prerequisites:** All 13 previous signatory offices (Library, OSAS, Registrar, Alumni Office, etc.) have approved the student's clearance. 2. **President's Dashboard:** The Office of the College President logs in. The student's name finally appears in their "Pending" queue (because the President is flagged as `is_final_approver`). 3. **Approval:** The President's staff clicks **"Approve"**. 4. **Completion:** The overarching status of the student's Clearance Request changes from "Pending" to **"Completed"**. 5. **Certificate Generation:** The student logs in, sees a "Completed" status, and a new green button appears: **"Download Clearance Certificate"**. 6. **Download:** The student clicks it, and a PDF is generated containing their details, a timestamp of completion, and a verifiable QR code.
